Patriarch Daniel and The Resurgence of the Romanian Orthodox Church Oct 01 2020 For a comprehensive history of the Romanian Church and its influences upon Romania in the post-Communist era, look no further than this brief work by George Alexander. Within its pages are dedicated research and over 100 source notes in regards to all the remarkable reforms, charities, and revitalization of both church and Country that has occurred under the leadership of the patriarch Daniel. Patriarch Daniel is proven in this book to truly be a Christ-like role model for all. Romania has been a nation fraught with struggles thanks to the Communist dictatorship she found herself chained under for decades, but Romania has survived and is beginning to thrive, in part due to the efforts of her Church. This book shines forth like a ray of hope for Romania and Eastern Europe as a whole, demonstrating fully that through the message of the Gospel and the love Christ offered by the Orthodox Church, any nation can recover from even near-total collapse. For anyone interested in the fascinating post-Communist history of Romania and her faith, this book is a must-have work.

The Oxford History of Romanian Morphology Jul 30 2020 This book offers the first comprehensive account of the development of the Romanian morphological system. Romanian is one of the most morphologically complex Romance languages, but has remained relatively understudied compared with better-known languages such as French and Spanish. Following an introduction that provides an outline of the history of Romanian, its writing system and major typological characteristics, and the major patterns of allomorphy, chapters in this volume explore a range of fascinatingly complex aspects of Romanian grammar whose structure and history have to date been largely inaccessible to the English-speaking world. Among the most distinctive morphological characteristics of Romanian discussed by the authors are its inflexional case system; the highly unpredictable formation of the plural; the existence of a non-finite verb form that appears to be the continuation of the Latin supine; the near-absence of distinctive subjunctive morphology; and the complex patterns of allomorphy brought about by successive sound change. The frequently controversial origins of many of these developments have important implications for broader historical Romance linguistics and indeed for morphological theory more generally.

The Great War and the Romanians Feb 17 2022 Written during the First World War, this book describes Romania 's role in World War I during the critical years of 1916 and 1917. The book analyzes the situation of the Romanians living within the borders of the Austro-Hungarian Empire at the time and the causes for Romania 's entry into the war. The author then discusses Romania 's contribution to the war effort during 1916 and the first half of 1917. An important record of events for historians interested in the First World War on the Eastern Front, it includes several essential historical documents that illustrate the author 's account of the events of the time. The book also has a preface by Albert Thomas, French minister of Armaments and War Production at that time, and Maurice Muret. It is a valuable

first-hand account of Romania's involvement in World War I. The author, Nicolae Petrescu-Comnène was an important Romanian diplomat of the interwar period. He served as ambassador to Switzerland, Germany, and the Vatican, as well as a delegate at the League of Nations, before becoming foreign minister from 1938 to 1939. He authored numerous studies on history, law, and politics.

Revolution, democratic transition and disillusionment Apr 19 2022 This book develops a fresh and challenging perspective on the transition from communism to capitalism. Drawing on a wide and diverse range of material and texts, it argues that transition and democratisation studies should turn their attention towards processes of illusion formation and disillusionment as key to understanding the shift from one ideological framework to another. The author provides alternative approaches to otherwise classical sites of examination of social change – such as revolutions and the emergence of civil society – and proposes a number of new possible sites by analysing the politics of self-reflection, the element of shock inherent in any transition and the role of visual narratives in negotiating change. The chapters are inspired by unique interviews and discussions with the leaders of the Timisoara Revolution, the Group of Social Dialogue – the first civil society organisation in post-communist Romania, the leading author of the 'Presidential Report Analysing the Communist Dictatorship in Romania' and an innovative group of photographers tracing the Romanian transition through images.

The Romanian Dec 15 2021 A 2004 Prix de Flore-winning memoir follows the author's journalism assignment in Eastern Europe, where he immersed himself in local culture, struggled with unrequited love, and obsessively researched the lives of the Romanian King Carol II. Reprint. 15,000 first printing.

History of the Romanians: From the origins to the modern age May 20 2022

Dada East Sep 12 2021 Tzara - who himself coined the term "Dada," inspired by an obscure connection of his birthday to an Orthodox saint - was at the Cabaret Voltaire that night, along with fellow Romanians Marcel, Jules, and Georges Janco and Arthur Segal. It's not a coincidence, Sandqvist argues, that so many of the first dadaist group was Romanians. Sandqvist traces the artistic and personal transformations that took place in the "little Paris of the Balkans" before they took center stage elsewhere, finding sources as varied as symbolism, futurism, and folklore. He points to a connection between Romanian modernists and the Eastern European Yiddish tradition; Tzara, the Janco brothers, and Segal all grew up within Jewish culture and traditions."

Higher Education in Romania May 08 2021 This open access book includes a series of relevant policy research articles, elaborated in the framework of the "Quality in higher education: internationalisation and databases to enhance the Romanian education system" project, implemented by the Executive Agency for Higher Education, Research, Development and Innovation Funding (UEFISCDI), together with the Ministry of Education. The project aims to develop and implement systemic measures at tertiary education level, leading to an increased quality of the overall higher education system and universities better prepared for labour market requirements and international standards. The book focuses on areas of interest for Romanian higher education, such as systemic measures to improve access, participation and completion for (vulnerable) students, better promotion of the Romanian higher education to attract students, as well as instruments for a more efficient use of data at higher education level. Each article includes evidence-based policy proposals that could support new strategic initiatives in higher education, including new legislation. Additionally,

the collection of articles tells a comprehensive story about the audacity of a higher education system which went through significant challenges to align itself with both European and international trends, as well as respond to national imperatives. Over the last three decades, since the fall of the Iron Curtain, Romanian higher education has undergone significant transformations, aiming to align itself to the latest developments and trends at European and international level. The National Law on Education no. 1/2011 has set the stage for a full implementation of the Bologna Process action lines, taking into account that Romania was already a part of the largest European intergovernmental process -- currently the European Higher Education Area (EHEA) -- as a founding member. However, since the adoption of this normative framework, the law suffered numerous amendments, making it challenging to observe and achieve coherence in its implementation. Furthermore, Romania is also currently redesigning the strategy for the allocation of European structural funds 2021-2027, based on two strategic documents - the new Education and Employment Operational Programme and the National Recovery and Resilience Plan which highlight the reform and investment priorities at a national level. At the same time, 2021 is a good time to analyze the level of implementation for the objectives and measures included in the National Strategy for Tertiary Education 2015-2020, the Europe 2020 Strategy, and the Bologna Process action lines in the 2010 – 2020 timeframe. Therefore, the present moment may be an important time to assess the impact of strategic documents and actions in the last decade and, possibly, to draft a new National Education Law, better adapted to current realities, starting from the recent initiative by the President of Romania – the Educated Romania strategic vision which was also politically assumed by the Romanian Government.

Inside the Mechanisms of Romanian Modernization Mar 06 2021 This book analyzes, in the relation with the Romanian modernity, the transformations of the Romanian public sphere, political system and journalism from the beginning of the 19th Century up to 2005. The argumentation starts from the idea that the Romanian Enlightenment never had the chance to reach its purpose, the creation of the individual as a human category. As a consequence of this historical fact, the Romanian modernity was not explored in all its dimensions and was not congruent with its western model of development. Only after late 90's, signs for a surpassing historical backwardness were seen in Romania, and only after the integration into EU become sure. From this perspective this book looks onto the change in the modernization engine of Romania, in late 90's. This change is happening as a transgression from a three steps modernization model, in which the role of the elite is central, to a two steps modernization model, in which the role of the elite is minimal. Because the three steps modernization model fits the idea of an acclamatory public sphere, while the two steps modernization engine fits the concept of civil public sphere, this book proves that the Romanian democracy is evolving from its totalitarian background to become a participative democracy. The only question unanswered yet, is if the elite and the mass media are willing to let Romania and its citizens to breakup the ties with the totalitarian past.

NATO - Past, Present And Future Nov 02 2020 Inhaltsangabe:Abstract: When talking about integration, one must think first of all about the problems such an integration means. Many Romanians nowadays look at the integration into the European and Euro-Atlantic structures only as a means of better living standards. But very few Romanians might be willing to pay the price for the integration. Nobody in Romania seems to know exactly the direction we are heading to. But there must certainly be changes of the people's mentality, if we want to achieve something at all. Yet, this problem does not concern Romanians alone. The West

generally regards Romania as a source of crime and, at least for the moment, does not even want to talk to Romania about our integration into the European Union, although the negotiations have been started with all potential candidates at the same time. Recently, when about 500 gypsies created problems in Austria, the country asked Hungary and the Czech Republic to introduce the visa-system for Romanian citizens. They obviously wanted the Romanians to be even more humiliated than they already were, lining up also at Hungary's and the Czech Republic's embassies in order to be able to travel to those countries. Mister Andrei Plesu, the Romanian Foreign Affairs Minister, said: If 500 gypsies are able to destabilise Austria, they are either first-hand merchandise or Austria is a little bit frail. On the other hand, one cannot deny that Romanian citizens keep causing trouble to western European countries. But the problem is that dubious people manage somehow to get visas, while honest people are denied the basic right of travelling to foreign countries only because a few of their fellow citizens are being considered troublemakers. If no visas were required, only a small, negligible margin of the Romanian citizens travelling abroad would be denied the permission to travel to western European countries again. Then, there is the problem of culture. If you ask a Romanian citizen about the capital of a western European state, it is less possible that he will not know it than if you asked a western European about Romania's capital. For instance, many Frenchmen are convinced that Budapest is Romania's capital. A French band performing in Bucharest was warmly welcome and acclaimed until its members shouted: I love you, Budapest! . Of course, the fact that western Europeans do not know eastern European capitals does not mean that people in western Europe are not civilised. Romania [...]

Folkloric Aspects of the Romanian Imaginary and Myth Oct 21 2019 This volume explores a selection of significant and topical elements from the vast amount of Romanian folkloric and mythological material. It sheds light on the mythical-ritualistic aspects of three complex calendar holydays (specifically The Lads of Braşov, Căluşarii, and Sonzienele), whose ritualistic sequences, laden with mythical-symbolical reminiscences, were lost during the Communist period and are known today thanks to their spectacular features. Such aspects include demonic mythical beings (such as Iele, Rusalii, Țîmpa Apei, The Woodwoman, and Strigoi) that define the collective imaginary; significant myths that have found their artistic expression in fairytales and legends; and the role of women in traditional Romanian society.

Ionel Bratianu Jun 09 2021 At the beginning of 1918 the British War Cabinet endorsed the view of the Prime Minister, David Lloyd George, that after the war "Austria-Hungary should be in a position to exercise a powerful influence in south-east Europe." These reassuring professions were the essence of hypocrisy, since the Allies had already given away, at least on paper, large chunks of Austro-Hungarian territory as bribes to potential allies. In 1916 Romania was promised the whole of Transylvania, the Banat - both components of historic Hungary - and the Bukovina in return for her entry into the war. These promises persuaded the Romanian Prime Minister Ion Bratianu (1864-1927) to intervene in the war on the side of the Allies in 1916. He led the Romanian delegation to the Paris Peace Conference, where he insisted on those promises to be fulfilled. His often-strained relations with the Big Four and

the Supreme Council were further eroded when Romania invaded Hungary. Romania, however, in the end signed and adhered to the Treaty of Saint-Germain-en-Laye with Austria, Neuilly-sur-Seine with Bulgaria, the Treaty of Paris (1920), the Treaty of Trianon with Hungary, and the minorities treaty.

[The History of the Holocaust in Romania Jun 28 2020](#) Drawing from an exhaustive collection of original Jewish accounts and sources not available until the fall of Nicolae Ceausescu in the late 1980s, Jean Ancel provides a detailed analysis of the path of antisemitism that led to the unspeakable horrors of the Holocaust in Romania. The Romanians and other nations inside and outside the Balkans related differently to "their Jews" and "other Jews," that is, those living in districts annexed to Romania after the First World War and those in areas occupied and annexed to the Romanian military administration after the Soviet invasion in June 1941. The Jews of the Regat, the core Romanian principality, suffered pogroms, decrees, and degradation, but on the whole they survived the Holocaust. Although more Jews survived in Romania than in any other non-occupied country allied with Germany, contemporary Romanian sources show that the Antonescu regime and Romania itself killed at least 400,000 Jews, including 180,000 Ukrainian Jews. Among Nazi Germany's allies, Romania contributed most to the extermination of the Jewish people.

[The Romanian Aug 23 2022](#) Winner of the 2004 Prix de Flore—one of France's most distinguished literary prizes—a wildly romantic, true-life love story “ History follows a trail of sputtering desire, often calling upon the delusions of lovers to generate the sparks. If it weren ’ t for us, the world would suffer from a dismal lack of stories,” writes Bruce Benderson in this brutally candid memoir. “ What astonishes and intrigues is Benderson ’ s way of recounting, in the sweetest possible voice, things that are considered shocking, ” wrote Le Monde. What ’ s so shocking? It ’ s not just Benderson ’ s job translating Céline Dion ’ s saccharine autobiography, which he admits is driving him mad; but his unrequited love for an impoverished Romanian in “ cheap club-kid platforms with dollar signs in his squinting eyes, ” whom he meets while on a journalism assignment in Eastern Europe. Rather than retreat, Benderson absorbs everything he can about Romanian culture and discovers an uncanny similarity between his own obsession for the Romanian (named Romulus) and the disastrous love affair of King Carol II, the last king of Romania (1893-1953). Throughout, Benderson— “ absolutely free of bitterness, nastiness, or any desire to protect himself, ” wrote Le Monde—is sustained by little white codeine pills, a poetic self-awareness, a sense of humor, and an unwavering belief in the perfect romance, even as wild dogs chase him down Romanian streets.

[The Origins and Onset of the Romanian Holocaust Jun 21 2022](#) The first mass killings of the Romanian Holocaust in late June to early July 1941 brutally claimed thousands of victims and marked the beginning of the government's plan to "cleanse the land" of Jews. Moreover, of all the Third Reich's allies, only Romania undertook its genocide campaign without the

intervention of Himmler's SS. In *The Origins and Onset of the Romanian Holocaust*, author Henry Eaton traces the historical path to this tragedy by examining both Romania's antisemitic history and looking at the initial mass killings in detail. First, Eaton traces the roots of the Romanian government's decision to exterminate Jews in Romania and in its annexed areas through its long and often violent antisemitic past. While the decision to target the Jews might have been ordered by dictator Ion Antonescu and his top civil and military officials, Eaton argues that it found its basis in an entrenched cultural abuse of Jews dating back to the nineteenth century. In the second section, Eaton analyzes the Romanian government's first killing operations: the execution of 311 Jewish men, women, and children at Stânca Rosnovanu by men of the Romanian 6th Cavalry Regiment; the great pogrom in the city of Iasi triggered by agents of the government's intelligence service; and the two "death trains" in which some 2,700 pogrom survivors perished in freight cars turned into ovens by the summer heat. In the final chapters, Eaton examines the victims and perpetrators in detail and addresses the possible German connections to the killings. *The Origins and Onset of the Romanian Holocaust* persuasively challenges the idea that Romania's adoption of murder as state policy was due to outside pressure. Eaton's volume will be illuminating reading for Holocaust studies scholars and readers interested in World War II history.

The Romanian Mass Media and Cultural Development Jul 22 2022 This compelling book assesses the development of the mass media since the Romanian Revolution in December 1989 and the media's impact on cultural development, the public sphere, civil society and

democracy. It controversially claims that Romania's failure to experience a thoroughgoing enlightenment project in its entire history remains a major obstacle for producing democratic ownership of the media and democratic development of society. Analyzing both the print and broadcast media and their respective effects on development, the book also discusses the effects of Romanian law on media and societal development, ethics, and media responsibilities. It concludes, however, that far from having an absolutely negative impact on Romanian post-communism, the media has helped produce a contradictory empirical form that equally contains positive moments in terms of subjective cultural development.

The Romanian Revolution of December 1989 Oct 25 2022 The Romanian Revolution of 1989 was the most spectacularly violent and remains today the most controversial of all the East European upheavals of that year. Despite (or perhaps because of) the media attention the revolution received, it remains shrouded in mystery. How did the seemingly impregnable Ceausescu regime come to be toppled so swiftly and how did Ion Iliescu and the National Salvation Front come to power? Was it by coup d'état? Who were the mysterious terrorists who wreaked such havoc on the streets of Bucharest and the other major cities of Romania? Were they members of the notorious securitate? What was the role of the Soviet Union? Blending narrative with analysis, Peter Siani-Davies seeks to answer these and other questions while placing the events and their immediate aftermath within a wider context. Based on fieldwork conducted in Romania and drawing heavily on Romanian sources, including television and radio transcripts, official documents, newspaper reports, and interviews, this book is the most thorough study of the Romanian Revolution that has appeared in English or any other major European language. Recognizing that a definitive history of these events may be impossible, Siani-Davies focuses on the ways in which participants interpreted the events according to particular scripts and myths of revolution rooted in the Romanian historical experience. In the process the author sheds light on the ways in which history and the conflicting retellings of the 1989 events are put to political use in the transitional societies of Eastern Europe.

The Romanian KGB Mar 26 2020 It is at the end of the communist era in Russia and Romania, Rowland Tymes is sent to Russia to manage the construction of a high tech plant, and then as the project nears completion he goes to Romania, to manage a similar project. Whilst traveling frequently between Russia, Romania and the UK he gets into the habit of taking small parcels and gifts for friends and colleagues, not knowing they contain top-secret information. As a result he falls foul of both the KGB and the Romanian Securitate, eventually being interrogated and then locked up in an old house on the outskirts of Bucharest. Eventually he escapes back to the UK, only to meet up with the informer in unusual circumstances. This is a story that could well have happened to many a business man of that time, traveling to these countries where the women are all one's imagination would wish them to be, full of Eastern promise and mystery, and sometimes with near-fatal consequences

History and Myth in Romanian Consciousness Jan 24 2020 There is a considerable difference between real history and discourse history - this book stems from this idea. The author points out that history is constantly reconstructed, adapted and sometimes mythified from the perspective of the present day, of present states of mind and ideologies. Boia closely examines the process of historical culture and conscience in nineteenth and twentieth

century Romania, particularly concentrating on the impact of the national ideology on history. Based upon his findings, the author identifies several key mythical configurations and analyses the manner in which Romanians have reconstituted their own highly ideologized history over the last two centuries. The strength of *History and Myth in Romanian Consciousness* lies in the author's ability to fully deconstruct the entire Romanian historiographic system and demonstrate the increasing acuteness of national problems in general, and in particular the exploitation of history to support national ideology.

The Re-Education Experiment in Romania Dec 03 2020 Very little is known--not only by the Western world but also by the Romanian youth--about the magnitude of the horrors the communist regime in Romania committed over its 40 years of dictatorship. This book is a collection of essays written between 1995 and 2011, chronicling the experiences and presenting the views of a former political prisoner about past and current events in Romanian history. A retired professor of operations research, Boldur-Latescu is one of the few survivors of the 'Pitesti Phenomenon', the experiment launched in the 1950's in communist prisons by the Romanian Securitate, which aimed at re-educating political prisoners through peer exerted torture. This book is a continuation of the analysis that started with "*The Communist Genocide in Romania*", published in 2005 by Nova Publishers) with a particular emphasis on the examination of the social, political, cultural, and economic evolution of Romania after the 1989 Revolution. Some of the essays go beyond the analysis of the Romanian context by tackling current challenges faced by Western democracies through a unique prism. The link between communism and terrorism, the lack of reference to Christian values in the EU Constitution, and the relevance of Tolstoy's work or the Testament left by Peter the Great to the current situation in world politics, are only a few examples of the author's unique interpretation of current world events.

Re-Configuring Romanian Culture on its Way Towards Modernity Jun 16 2019 As a direct result of an international conference organized in the year 2021, the volume tries to shed

light on the way in which the translation activity contributed to the Romanian culture and language, drawing from different traditions and cultures it came in contact with (directly or indirectly), and thus mingling the own Slavonic church tradition with the new and revolutionary ideas of the Western world and using this mix to modernise the society, language and the politics in this region. Furthermore, this eclectic collection of articles highlights the fact that it was neither the exclusive merit of the Transylvanian scholars, nor of the Moldavian or Wallachian ones to have contributed decisively to the formation of the national consciousness and to the standardisation of the language, but it was rather the collaboration, the circulation of people and ideas that furthered the modernity in all three Romanian Principalities. Without disregarding the regional specificity of the Romanian Enlightenment, the volume focuses on the interconnections of the agents involved in the cultural transfer, on the networks they created for the dissemination of knowledge and political thought and on the common effort to render the new ideas and concepts of the foreign cultures in a national language that could be accessible to the Romanians.
