In 1913 on behalf of the Polish National Council he made a speaking tour over the States, visiting more than 200 Polish colonies and travelling over 12,000 miles. To show the sincerity of his statement he enlisted as a Private in the 97th Battalion, American Legion of the Canadian Expeditionary Forces, subsequently receiving a commission and appointment as an instructor of an Officers Training School at Halifax, N. S. Afterwards he proceeded overseas with a French-Canadian Unit. Captain John Reid, who has kindly drawn the maps for this publication, was for years

**The Borders of Subculture** Jul 22 2019 This book aims to revisit the notion of subculture for the 21st century, reinterpreting it and extending its scope. On the one hand, the notion of resistance is redefined and applied to contemporary practices of cultural production and entrepreneurship. On the other hand, contributors reconsider the connection of subcultures to everyday culture, exploring more mainstream forms of cultural production and consumption across a wider range of social groups. As a consequence, this book extends the scope to look beyond the white, male, adolescent, urban cultures identified with earlier subcultural studies. Contributors also examine fusions and crossovers between Western and non-Western cultural practices.

**Producing Women** Apr 11 2021 Producing Women examines the ways femininity is produced through new media. Michele White considers how women are constructed, produce themselves as subjects, form vital production cultures on sites like Etsy, and deploy technological processes to reshape their identities and digital characteristics. She studies the means through which women market traditional female roles, are viewed, and produce and restructure their gendered, raced, eroticized, and sexual identities. Incorporating a range of examples across numerous forms of media—including trash the dress wedding photography, Internet how-to instructions about zombie walk brides, nail polish blogging, DIY crafting, and reborn doll production—Producing Women elucidates women's production cultures online, and the ways that individuals can critically study and engage with these practices.

**Time Reborn** May 12 2021 A radical new view of the nature of time and the cosmos—“at once entertaining, thought-provoking, fabulously ambitious and fabulously speculative” (The New York Times Book Review). What is time? This deceptively simple question is the single most important problem facing science as we probe deeper into the fundamentals of the universe. All of the mysteries physicists and cosmologists face—from the Big Bang to the future of the universe, from the puzzles of quantum physics to the unification of forces and particles—come down to the nature of time. The fact that time is real may seem obvious. You experience it passing every day when you watch clocks tick, bread toast, and children grow. But most physicists, from Newton to Einstein to today’s quantum theorists, have seen things differently. The scientific case for time being an illusion is formidable. That is why the consequences of adopting the view that time is real are revolutionary. Here, the author of *The Trouble with Physics* argues that a limited notion of time is holding physics back—and what we need now is a major shift in scientific thought. The true reality of this manmade construct could be the key to the next big breakthrough in theoretical physics—and could hold implications relevant to issues from climate change to the economy. What if the laws of physics themselves were not ageless? What if they could evolve? *Time Reborn* offers a radical approach to cosmology that embraces the concept of time and opens up a whole new universe of possibilities. “With rare conceptual daring, Smolin beckons toward a new perspective for doing cosmological theory . . . A thrilling intellectual ride.” —Booklist, starred review

**Hemispheric Imaginations** Dec 07 2020 What image of Latin America have North American fiction writers created, found, or echoed, and how has the prevailing discourse about the region shaped their work? How have their writings contributed to the discursive construction of our southern neighbors, and how has the literature undermined this construction and added layers of

complexity that subvert any approach based on stereotypes? Combining American Studies, Canadian Studies, Latin American Studies, and Cultural Theory, Breinig relies on long scholarly experience to answer these and other questions. *Hemispheric Imaginations*, an ambitious interdisciplinary study of literary representations of Latin America as encounters with the other, is among the most extensive such studies to date. It will appeal to a broad range of scholars of American Studies.

**History as Apocalypse** Nov 06 2020 *History as Apocalypse* is a reenactment of the history of the Western consciousness from the Homeric and Biblical revolutions through *Finnegans Wake*. This occurs through a historical, literary, and theological analysis of the Christian epic tradition. While attention is focused primarily upon Dante, Milton, Blake, and Joyce, the Classical and Biblical foundations of the Christian epic are explored with the intention of discovering an organic unity in the evolution of the Western consciousness. Our primary epics are identified as revolutionary breakthroughs, not only as transformations of consciousness but also records of social revolutions. The Christian epic is both a consequence and a primary embodiment of the decisive historical revolutions, revolutions culminating with the ending of our historical evolution.

A God's Own Tale Jun 13 2021 This scripture was revealed through spirit writing in 1181. It traces Wenchang's development through his many transformations culminating in his apotheosis as director of the Wenchang Palace and custodian of the Cinnamon Record that determines men's and women's fates. The god has since assumed a high position in the Taoist pantheon, has been introduced into the school system and Confucian temples, and now controls the all-important

civil service examinations in China. The text translated here provides a unique window into the religious world of Traditional China. Numerous anecdotes of good- and evil-doers reveal the ethical dilemmas facing men and women of the time, from social questions like infanticide and discrimination against women to more purely religious issues such as how evil gods are punished and how China's divergent religious traditions can be reconciled.

**Abhisamay?la?k?ra with Vr?tti and ?lok? - Vol. 1** Jul 02 2020 Maitreya's

Abhisamayalamkara is the most widely studied book in Tibet, where it was brought from India many centuries ago. It is used in all the monasteries to teach the path to Buddhahood, in accordance with the Perfection of Wisdom Sutras. It teaches this in outline form, so it requires a commentary to be understood. The oldest extant commentary is Arya Vimuktisena's Vrtti. Haribhadra, the most influential Indian commentator, drew upon this to write his Aloka. Virtually all of the many famous Tibetan teachers who wrote their own commentaries on the Abhisamayalamkara relied on Haribhadra as their primary source. This is the first of four volumes.

*The Emergence of Buddhism* Nov 25 2019 This brief survey tells the story of Buddhism as it unfolds through the narrative of the Brahmanical cosmology from which Buddhism emerged, the stories and myths surrounding the Buddha's birth, the Buddha's path to enlightenment, and the eventual spread of his teachings throughout India and the world. Jacob N. Kinnard helps readers understand complex concepts such as the natural law of cause and effect (Karma), the birth/life/death/rebirth cycle (samsara), the everchanging state of suffering (dukkha), and salvation or the absence of all states (Mivana). Several illustrations, together with biographical sketches and primary sources, help to illuminate the extraordinary richness of the Buddhist traditon. "At last, a textbook on Buddhism that integrates new and old methods for telling the story of Buddhism's development in India and its expansion into other parts of Asia; this book is a jewel. Kinnard's skill as an interpreter of material culture in the history of South Asian religions gives him insight into content students of Buddhism should know. Students will appreciate the towering personalities and dramatic choices of the men and women who shaped the story of buddhism in India and Other parts of Asia." Elizabeth Wilson Professor and Chair of comparative Religion Maimi University, Ohio "In an admirably succinct fashion, Jacob Kinnard traces the development of Buddhism in India during the first fifteen hundred years of its history there. In so doing he sets the stage for the consideration of Buddhist traditions elsewhere, always attened to the Social, economic, political, and relious contexts in which this development occurred, the author pays particular attention to the lifestory of the buddha and to the evolution of his ongoing presence in his teachings, his relics, his images, and the pilgrimage sites associated with him. All of this is nicely complemented by brief teachings his relics, his images, and the pilgrimages sites associated with him. All of this is nicely complemented by brief biographics of prominent Buddhist historical figures and by a judicious selections of translations of pali and Sanskrit texts. **Groundless Paths** Mar 10 2021 The Abhisamayalamkara summarizes all the topics in the vast body of the prajñāparamita sutras. Resembling a zip-file, it comes to life only through its Indian and Tibetan commentaries. Together, these texts not only discuss the "hidden meaning" of the prajñāparamita sutras—the paths and bhūmis of sravakas, pratyekabuddhas, and bodhisattvas—but also serve as contemplative manuals for the explicit topic of these sutras—emptiness—and how it is to be understood on the progressive levels of realization of bodhisattvas. Thus these texts describe what happens in the mind of a bodhisattva who meditates on emptiness, making it a living experience from the beginner's stage up through buddhahood.

Groundless Paths contains the first in-depth study of the Abhisamayalamkara (the text studied most extensively in higher Tibetan Buddhist education) and its commentaries from the perspective of the Nyingma School of Tibetan Buddhism. This study consists mainly of translations of Maitreya's famous text and two commentaries on it by Patrul Rinpoche. These are supplemented by three short texts on the paths and bhumis by the same author, as well as extensive excerpts from commentaries by six other Nyingma masters, including Mipham Rinpoche. Thus this book helps close a long-standing gap in the modern scholarship on the prajñāparamita sutras and the literature on paths and bhumis in mahayana Buddhism. Arya Maitreya's Ornament of Clear Realization, with its Indian and Tibetan commentaries, presents the complex dynamics of the path to liberation as a succession of realizations of the empty nature of all phenomena. This presentation is a powerful antidote to whatever two-dimensional views we might hold about spiritual experience and the journey to enlightenment.
