[Dieter Rams](#) Jun 25 2022 Exquisitely produced to reflect Dieter Rams' aesthetic philosophy, this book presents highlights from a forty-year career designing iconic consumer products that

enhance our daily lives. For decades, anyone who cared about product design looked to the Braun label when choosing their appliances, radios, and other consumer items. Now Dieter Rams, the guiding force behind the Braun look, breaks down his design principles and processes in this elegant book. Enumerating each of his ten principles such as good design is innovative; good design is aesthetic; good design is useful, etc., this book presents one hundred items that embody these guidelines. Readers will find items that are familiar such as the ubiquitous coffee grinder but also those that are more unusual such as shelving systems and cigarette lighters. A fascinating essay places Dieter Rams in the context of modern design, from Bauhaus to Philip Johnson. Archival materials include photos of Rams' design team and excerpts from his publications and speeches. The book closes with a chronological overview of design icons, categorized by function, that show the enormous breadth of Rams' vision. Taken together, these images and texts offer the most comprehensive overview of Dieter Rams' work to date and will serve as both a reference and an inspiration for anyone interested in how and why good design matters.

Dieter Rams: As Little Design as Possible Oct 29 2022 "Indifference towards people and the reality in which they live is actually the one and only cardinal sin in design" - Dieter Rams. Dieter Rams' life and work are indelibly linked to his thoughts about how people live, and how they can live better. Products he designed in the 1960s are still being produced and sold today - only one demonstration of the strength of his work. This comprehensive monograph covers both Rams' life and his work, as well as his ideas on good design, which continue to inspire designers and consumers today. A personal foreword by Jonathan Ive evokes the influence that Rams has had on his own work and, by extension, the objects with which so many of us share our everyday lives. An introduction and an essay by Klaus Kemp tell the story of Rams' early life, his training as an architect, and the intellectual context in which his ideas were developed. The next four chapters examine Rams' work and his life - which are more or less synonymous - in depth. This includes his role at Braun as well as the work he did for the furniture company Vitsoe. Each chapter includes sketches, prototypes, finished products and the marketing for those

products, giving a complete picture of Rams' work and its context. Two other chapters in this section present Rams' own house, the only work of architecture that he completed, and examine the products he designed at the level of detail, a crucial aspect to his work. A further chapter examines Rams' "ten commandments" of good design and his credo, "less but better", in the context of his role as head of design at Braun, and a final chapter explores his legacy in the work of contemporary designers including Naoto Fukasawa, Jonathan Ive, Sam Hecht, and Konstantin Grcic. This beautifully designed book includes a wide variety of visual material, including sketches and technical drawings, photographs of Rams' work as well as his life, archival material from both Braun and Vitsoe, Ingeborg Rams' subtle photographs and Vitsoe's playful graphic design and advertising. This book will appeal not only to fans of Dieter Rams' work, but to everyone drawn to the message behind his "ten commandments" of good design - which are really ideas about how we can all live better and more sustainable lives. experience. My hope is that it will become the go-to dictionary for every designer, thanks to its well organized format. Presenting frequently used research methods, and explaining how to apply each, it prepares the reader to take real UX projects head on. The final two chapters move the spotlight to practical tips and statistics every designer can apply, and as a conclusion, it ends highlighting unethical practices to avoid as a UX Designer.

Design for Society Apr 23 2022 Although design has become eminently newsworthy among the general public in our society, there is very little understanding to be found of the values and implications that underlie it. Design generates much heat but little light: we live in a world that has much design consciousness, but little design awareness. Nigel Whiteley analyses design's role and status today, and discusses what our obsession with it tells us about our own culture. Design for Society is not an anti-design book; rather, it is an anti-consumerist-design book, in that it reveals what most people would agree are the socially and ecologically unsound values and unsatisfactory implications on which the system of consumerist design is constructed. In so doing, it prepares the ground for a more responsible and just type of design.

Dieter Rams: The Complete Works Aug 27 2022 The ultimate reference on one of the most influential product designers of all time For more than sixty years Dieter Rams has defined the look, feel, and function of some of the world's best-loved consumer items. Here, for the first time, is a catalogue raisonné(c) of every product that he has designed in his lifetime -- a true celebration of his seminal contribution to the field of industrial and product design.

Designing Design Oct 05 2020 Representing a new generation of designers in Japan, Kenya Hara (born 1958) pays tribute to his mentors, using long overlooked Japanese icons and images in much of his work. In *Designing Design*, he impresses upon the reader the importance of emptiness in both the visual and philosophical traditions of Japan, and its application to design, made visible by means of numerous examples from his own work: Hara for instance designed the opening and closing ceremony programs for the Nagano Winter Olympic Games 1998. In 2001, he enrolled as a board member for the Japanese label MUJI and has considerably moulded the identity of this successful corporation as communication and design advisor ever since. Kenya Hara, alongside Naoto Fukasawa one of the leading design personalities in Japan, has also called attention to himself with exhibitions such as *Re-Design: The Daily Products of the 21st Century*. **Identity Designed** Dec 07 2020 Ideal for students of design, independent designers, and entrepreneurs who want to expand their understanding of effective design in business, *Identity Designed* is the definitive guide to visual branding. Crazy Tuesdays Aug 23 2019 If you're looking for a laugh-out-loud, feel-good book that will engage you from start to end, look no further than here. Author Sue Stearns's debut work is a fast and funny read that is sure to put a cheek-to-cheek grin on your face and reawaken your inner child. *Crazy Tuesdays* is a highly entertaining collection of short stories, anecdotes, and insights plucked from Stearns's personal life experiences as a mother of two rebellious toddlers, Minka and Cooper. The stories focus on her kids and explain what a typical Tuesday is like in their home, although what's typical for them is not typical for most. Tuesday is the day of the week when the entire Stearns family gets together, lets loose, and does the messiest, wildest activity or craft they can think of. From taking mud baths outside to flailing paint on household walls covered with sheet metal, the Stearns family has had some pretty wild and crazy Tuesdays. As mother Stearns shares how each new Tuesday brings a new adventure for her clan, she peppers her pieces with a lighthearted humor and spirited enthusiasm which, on its face, situates *Crazy Tuesdays* as a must-read for those seeking first and foremost to be amused. Also a college graduate and military wife, let's not forget that Stearns is a mom-and as a general rule, moms have a funny way of being able to sneak a lesson or two into even the most obvious forms of fun. What Stearns accomplishes in *Crazy Tuesdays* is no exception to this rule. As she delivers spleen-splitting stories, she also imparts a meaningful message: Parenting can be exhausting, but even in the midst of all the chaos and confusion, there is always something to laugh about. You just have to find it. And if Stearns was able to find it, there's hope for you, too.
