Wingless Chickens, Bayou Catholics, and Pilgrim Wayfarers Mar 04 2020
Flannery O'Connor, Tim Gautreaux, and Walker Percy, are all Catholic writers from the South—and seem to embody very fully both parts of that label. Yet as quickly becomes clear in their writing, their fiction employs markedly different tones and modes of addressing their audience.

O'Connor seems intent on shocking her reader, whom she anticipates will be hostile to her deepest beliefs. Gautreaux gently and humorously engages his reader, inviting his expected sympathetic audience to embrace the characters' needed moral growth. Percy satirically lampoons an array of social ills and failings in the Church, as he tries to get his audience laughing with him while he makes his deadly

serious point about the flaws he finds in the church and larger culture. Why do these three writers assume such divergent images of their audience? Why do texts by three writers who each embrace their Southern locale and their Catholic beliefs seem to have so little in common? To answer these questions, Nisly helps readers understand these authors' fiction by examining the role that place and time had in shaping each author's idea of an audience—and, by extension, his or her manner of addressing that audience. More specifically, Nisly focuses on each author's experience of Catholic community and each author's placement in relation to the Second Vatican Council. Linking together biographical information and a reading of their fiction, Nisly argues that O'Connor's, Gautreaux's, and Percy's sense of audience has been shaped in significant ways by each author's own local experience of Catholicism in his or her home region as well as the larger, global changes of Vatican II that

transformed Roman Catholicism.

about their Catholic roots!
Black and Catholic in Savannah, Georgia Feb 01 2020 In this unique ethnography of urban southern Catholicism - one of the few substantial studies of modern African-American Catholics since the 1920s - Gary W. McDonogh employs a decade of anthropological and historical research to explore the contradictions and survival of black and Catholic parishes in Savannah. Given the disfranchisement of African Americans in the South as well as nativist responses to Catholics among both blacks and whites, those who are black and Catholic in Savannah constitute a double minority whose lives McDonogh explores by examining the interaction of community, church, and individual. A city divided for two centuries by conflicts over culture, class, and race, Savannah is permeated by ambiguous identities that often end up before the altar. Religion thus serves as a cultural language through which urban life can

be observed as well as a system of belief and identity shared by blacks and Catholics. This multidisciplinary study links ethnography to wider debates on symbolism, gender, class, and cultural power. The vivid voices, memories, ritual and social acts, and observations of Savannah provide the basis for comparative insights and theoretical generalizations on communities within the United States and on a broad range of urban and religious issues.

French and Spanish Records of Louisiana Jun 30 2022

Representing years of extensive research, this authoritative and comprehensive guide to the records generated in the Louisiana Territory during the French and Spanish colonial periods is a major reference work. Henry Putney Beers has painstakingly traced all types of documents, including land, military, and ecclesiastical records; registers of births, marriages, and burials; and private papers. Far more than a mere bibliographical listing,

the book provides a complete history and description of these records and their past as well as current locations. When microfilms or other copies of particular bodies of documents exist, Beers describes the circumstances of reproduction and lists the locations of the copies. In the first part of the book, Beers presents a concise account of history and government in Louisiana, concentrating on the formation of a record-keeping bureaucracy. His detailed discussion includes information on available archival reproductions, documentary publications, and the nature and size of holdings in pertinent manuscript collections. Beers's examination of parish, land, and ecclesiastical records will serve as a vital resource. In the remainder of the book, he provides a similarly comprehensive treatment of the records of what are now Mississippi, Alabama, Missouri, and Arkansas. Beers traces repositories for these documents far beyond regional

confines, locating some in Europe, Canada, and Cuba. For the early migrants to the region -- the Acadians, for example -- he describes source materials at the migrants' points of origin. He also provides information on documents that have been lost or destroyed, an important service that will save researchers much time. French and Spanish Records of Louisiana will prove to be of enormous value to a wide range of people: professional historians, local history buffs, genealogists, lawyers, archivists, and librarians.

Speaking French in Louisiana,

1720-1955 Nov 23 2021 Over the course of its three-hundred-year history, the Catholic Church in Louisiana witnessed a prolonged shift from French to English, with some south Louisiana churches continuing to prepare marriage, baptism, and burial records in French as late as the mid-twentieth century. Speaking French in Louisiana, 1720-1955 navigates a complex and lengthy process, presenting a nuanced picture of language change within the Church and situating its practices within the state's sociolinguistic evolution. Mining three centuries of evidence from the Archdiocese of New Orleans archives, the authors discover proof of an extraordinary one-hundred-year rise and fall of bilingualism in Louisiana. The multiethnic laity, clergy, and religious in the nineteenth century necessitated the use of multiple languages in church functions, and bilingualism remained an ordinary aspect of church life through the antebellum period. After the Civil War, however, the authors

show a steady crossover from French to English in the Church, influenced in large part by an active Irish population. It wasn't until decades later, around 1910, that the Church began to embrace English monolingualism and French faded from use. The authors' extensive research and analysis draws on quantitative and qualitative data, geographical models, methods of ethnography, and cultural studies. They evaluated 4,000 letters, written mostly in French, from 1720 to 1859; sacramental registers from more than 250 churches; parish reports; diocesan council minutes; and unpublished material from French archives. Their findings illuminate how the Church's hierarchical structure of authority, its social constraints, and the attitudes of its local priests and laity affected language maintenance and change, particularly during the major political and social developments of the nineteenth and early twentieth centuries.

Speaking French in Louisiana, 1720–1955 goes beyond the “triumph of English” or “tragedy of Cajun French” stereotypes to show how south Louisiana negotiated language use and how Christianization was a powerful linguistic and cultural assimilator.

Seamus Heaney and the End of Catholic Ireland Sep 21

2021 Seamus Heaney & the End of Catholic Ireland takes off from the poet's growing awareness in the new millennium of "something far more important in my mental formation than cultural nationalism or the British presence or any of that stuff—namely, my early religious education." It then pursues an examination of the full trajectory of Heaney's religious beliefs as represented in his poetry, prose, and interviews, with a briefer account of the interactive religious histories of the Irish and international contexts in which he lived. Thus, in the 1940s and 50s, Heaney was inducted into the narrow, punitive, but also enabling Catholicism of the era. In the early 1960s he was witness to

the lively religious debates from the Anglican Bishop of Woolwich's *Honest to God* to the seismic disruptions of Vatican II. When the conflict in Northern Ireland between Catholics and Protestants broke out, Heaney was forced to dig deep for an imaginative understanding of its religious roots. From the 1980s on, Heaney more and more proclaimed his own religious loss while also recognizing the institution's residual value in an Irish society of rising prosperity, weariness with the atrocities of a partly religion-inspired IRA, and beset by the scandals of sex abuse among the clergy. Kieran Quinlan sees Heaney as an exemplar of this period of major change in Ireland as he engaged the religious issue not only in major writers such as James Joyce, W. B. Yeats, T. S. Eliot, Wallace Stevens, Philip Larkin, and Czeslaw Miłosz, but also in a diverse array of less familiar commentators lay and clerical, creative and academic, believers and unbelievers, Irish and international. Breaking

new ground by expanding the scope of Heaney's religious preoccupations and writing in an accessible, reflective, and sometimes provocative manner, Quinlan's study places Heaney in his universe, and that universe in turn in its wider intellectual setting.

The Source Oct 23 2021
Genealogists and other historical researchers have valued the first two editions of this work, often referred to as the genealogist's bible. The new edition continues that tradition. Intended as a handbook and a guide to selecting, locating, and using appropriate primary and secondary resources, *The Source* also functions as an instructional tool for novice genealogists and a refresher course for experienced researchers. More than 30 experts in this field--genealogists, historians, librarians, and archivists--prepared the 20 signed chapters, which are well written, easy to read, and include many helpful hints for getting the most out of

whatever information is acquired. Each chapter ends with an extensive bibliography and is further enriched by tables, black-and-white illustrations, and examples of documents. Eight appendixes include the expected contact information for groups and institutions that persons studying genealogy and history need to find. ""

Marie Adrien Persac Dec 25

2021 Marie Adrien Persac (1823-1873) was a French-born Louisiana artist who worked in a range of mediums to produce a unique view of the lower Mississippi Valley at midcentury. In the first catalogued exhibition devoted solely to this multifaceted but overlooked talent, paintings, drawings, maps, and photographs from numerous holdings have been brought together to present fresh insights and reevaluate this artist's place in the annals of American history and material culture. Due in part to his broad talents artist, cartographer, architect, civil engineer, photographer, and art teacher Persac's work is of major importance to Southern history researchers and art historians. His paintings of south Louisiana plantation houses have captured that now-varnished lifestyle in minute detail, approximating
