Persian Blues, Psychoanalysis, and Mourning Sep 28 2022 In Persian Blues, Psychoanalysis and Mourning, Gohar Homayounpour plays a theme and variations on loss, love, and family against the backdrop of Iran's chaotic recent past. Homayounpour is simultaneously Shahrzad, the fearless storyteller, and Shahrzad's analyst: subjecting fairy tales to fierce new insights, while weaving an indigo thread through her own devastation on the death of her father and the wonders and horrors of motherhood. A blue thread, or melody, runs though the separations and emigrations of her family and patients driven or broken apart by war, and likewise through the fraught world inhabited by Persian women. This book breaks new psychoanalytic ground, offering a radical rejection of traditional clichés about Iran, and Iranian women, but its unsparing elegance transcends any political agenda, bridging the ocean of a shared and tragic humanity. Persian Blues, Psychoanalysis and Mourning will be of great interest to psychoanalysts and psychoanalytically informed readers, as well as those interested in grief, Iran, and women's experiences.

The Bluest of Blues Jan 28 2020 A gorgeous picture book biography of botanist and photographer Anna Atkins--the first person to ever publish a book of photography After losing her mother very early in life, Anna Atkins (1799–1871) was raised by her loving father. He gave her a scientific education, which was highly unusual for women and girls in the early 19th century. Fascinated with the plant life around her, Anna became a botanist. She recorded all her findings in detailed illustrations and engravings, until the invention of cyanotype photography in 1842. Anna used this new technology in order to catalogue plant specimens—a true marriage of science and art. In 1843, Anna published the book Photographs of British Algae: Cyanotype Impressions with handwritten text and cyanotype photographs. It is considered the first book of photographs ever published. Weaving together histories of women, science, and art, The Bluest of Blues will inspire young readers to embark on their own journeys of discovery and creativity.

How Belfast Got the Blues Oct 29 2022 This is not just an important music book; it is an important history book. It captures the moment before Belfast and Northern Ireland became synonymous with the Troubles. It places one of the best-known figures in global popular music, Van Morrison, in his historical and sociocultural context. It also reinstates Otilie Patterson into her rightful role as a central figure in Ireland's music. It addresses a significant gap in Ireland's popular music studies by appraising the contribution of a politically and musically significant female figure. It makes a major original contribution to the understanding of popular music culture in Northern Ireland, and to the broader popular music culture in Britain in the 1960s. It will remain for many years the definitive study of the subject and a point of reference for further research and controversy. In light of the re-emergence of Northern Ireland in contemporary British political debate, this book presents a nicely timed intervention, placing Northern Ireland at the forefront of a key moment in British and Irish cultural history, and presenting highly innovative

readings of key popular cultural figures. Integrating its account of the popular music culture and local 'scene' in Northern Ireland with the broader and highly complex context of the sociopolitical milieu, it offers original and insightful readings of key 1960s figures, including film director Peter Whitehead, The Rolling Stones, Them, Ottilie Patterson and Van Morrison. It includes much new material, obtained in interviews and through meticulous archival research, to challenge the mainstream narrative of the mid-1960s music scene in Belfast. It is extremely well researched, making use of newspaper and film archives and existing publications, but also an impressive set of personal interviews with veteran musicians and others from that time. The authors challenge much of the received wisdom about the period – for instance, about the decline of the showband – and present their arguments carefully and thoughtfully. While meticulously researched and thoroughly analytic, the writing is uniquely accessible and engaging. The chapter on the neglected Belfast blue singer Ottilie Patterson represents a paradigm shift in Irish popular music studies, and sets her story and considerable achievements centre stage. This alone makes the book very noteworthy. The chapters on Van Morrison and his band Them place his early career in the context of the local and global music industry. The story of The Rolling Stones film, made by Peter Whitehead, is discussed in the context of the international fervour of the times. The knitting of the music scene with the distinctive social, cultural, political and religious factors is deftly done. Primary readership will be academic – scholars, researchers and students across a range of areas. Fields of interest include popular music studies, Irish studies, political history, cultural studies, film studies, jazz/blues history, women's studies, civil rights. It will also appeal more broadly to fans, writers, journalists and musicians interested in Belfast, Northern Ireland, the Blues, rock and roll, jazz and the 1960s, as well as to fans of the individual musicians.

Book of Blues Apr 30 2020 Best known for his "Legend of Duluoz" novels, including On the Road and The Dharma Bums, Jack Kerouac is also an important poet. In these eight extended poems, Kerouac writes from the heart of experience in the music of language, employing the same instrumental blues form that he used to fullest effect in Mexico City Blues, his largely unheralded classic of postmodern literature. Edited by Kerouac himself, Book of Blues is an exuberant foray into language and consciousness, rich with imagery, propelled by rhythm, and based in a reverent attentiveness to the moment. "In my system, the form of blues choruses is limited by the small page of the breastpocket notebook in which they are written, like the form of a set number of bars in a jazz blues chorus, and so sometimes the word-meaning can carry from one chorus into another, or not, just like the phrase-meaning can carry harmonically from one chorus to the other, or not, in jazz, so that, in these blues as in jazz, the form is determined by time, and by the musicians spontaneous phrasing & harmonizing with the beat of time as it waves & waves on by in measured choruses." —Jack Kerouac

Representations of HIV and AIDS Jul 26 2022 Gabriele Griffin argues that the explosion of HIV/AIDS into highly visible cultural forms, from movies, theatre, activist interventions, and art from the late-1980s to the mid-1990s has been replaced by a retreat to artistic invisibility.

the likes of Samuel Charters and Paul Oliver, the authors hope to contribute to the revitalisation of the field through a multi-disciplinary approach designed to explore this constantly evolving social phenomenon in all its heterogeneity. Focusing either on particular artists (Lightnin' Hopkins, Robert Johnson), or specific texts (Langston Hughes' *Weary Blues* and *Backlash Blues*, Jimi Hendrix's *Machine Gun*), the book tackles issues ranging from authenticity and musicology in Blues performance to the Blues in diaspora, while also applying techniques of linguistic analysis to the corpora of Blues texts. While some chapters focus on the Blues as a quintessentially American phenomenon, linked to a specific social context, others see it in its current evolutions, as the bearer of vital cultural attitudes into the digital age. This multidisciplinary volume will appeal to a broad range of scholars operating in a number of different academic disciplines, including Musicology, Linguistics, Sociology, History, Ethnomusicology, Literature, Economics and Cultural Studies. It will also interest educators across the Humanities, and could be used to exemplify the application to data of specific analytical methodologies, and as a general introduction to the field of Blues studies.

School Blues May 24 2022 Daniel Pennac has never forgotten what it was like to be a very unsatisfactory student, nor the day one of his teachers saved his life by assigning him the task of writing a novel. This was the moment Pennac realized that no-one has to be a failure for ever. In *School Blues*, Pennac explores the many facets of schooling: how fear makes children reject education; how children can be captivated by inventive thinking; how consumerism has altered attitudes to learning. Haunted by memories of his own turbulent time in the classroom, Pennac enacts dialogues with his teachers, his parents and his own students, and serves up much more than a bald analysis of how young people are consistently failed by a faltering system. *School Blues* is not only universally applicable, but it is unquestionably a work of literature in its own right, driven by subtlety, sensitivity and a passion for pedagogy, while embracing the realities of contemporary culture.

The Poetry of the Blues Sep 04 2020 "A signal event in the history of the music." — Ted Gioia, author of The Delta Blues Musicologist and writer Samuel Charters (1929–2015) considered blues lyrics a profound cultural expression that could connect all people who love poetry. A pioneer in the exploration of world music, Charters conducted research that brought obscure musicians of the American South and Appalachia into the mainstream. In this landmark volume, the noted blues historian and folklorist presents a rich exploration of blues songs as folk poetry, quoting lyrics by such legends as Son House and Lightnin' Hopkins at length to reveal the depth of feeling and complex literary forms at work within a unique art form. Originally published in 1963, The Poetry of the Blues raised interest in many previously unrecognized aspects of African-American music and made a significant contribution to the blues revival of the 1960s. This volume features now-vintage black-and-white photographs by Ann Charters from the original edition.
