[Powerful Teaching](#) Jun 20 2019 Unleash powerful teaching and the science of learning in your classroom **Powerful Teaching: Unleash the Science of Learning** empowers educators to harness rigorous research on how students learn and unleash it in their classrooms. In this book, cognitive scientist Pooja K. Agarwal, Ph.D., and veteran K–12 teacher Patrice M. Bain, Ed.S., decipher cognitive science research and illustrate ways to successfully apply the science of learning in classrooms settings. This practical resource is filled with evidence-based strategies that are easily implemented in less than a minute—without additional prepping, grading, or funding! Research demonstrates that these powerful strategies raise student achievement by a letter grade or more; boost learning for diverse students, grade levels, and subject areas; and enhance students’ higher order learning and transfer of knowledge beyond the classroom. Drawing on a fifteen-year scientist-teacher collaboration, more than 100 years of research on learning, and rich experiences from educators in K–12 and higher education, the authors present highly accessible step-by-step guidance on how to transform teaching with four essential strategies: Retrieval practice, spacing, interleaving, and feedback-driven metacognition. With **Powerful Teaching**, you will: Develop a deep understanding of powerful teaching strategies based on the science of learning Gain insight from real-world examples of how evidence-based strategies are being implemented in a variety of academic settings Think critically about your current teaching practices from a research-based perspective Develop tools to share the science of learning with students and parents, ensuring success inside and outside the classroom **Powerful Teaching: Unleash the Science of Learning** is an indispensable resource for educators who want to take their instruction to the next level. Equipped with scientific knowledge and evidence-based tools, turn your teaching into powerful teaching and unleash student learning in your classroom.

**Coach's Guide to Teaching** Jul 02 2020 The mark of a great coach is a constant desire to learn and grow. A hunger to use whatever can make them better. The best-selling author of Teach Like a Champion and Reading Reconsidered brings his considerable knowledge about the science of classroom teaching to the sports coaching world to create championship caliber coaches on the court and field. What great classroom teachers do is relevant to coaches in profound ways. After all, coaches are at their core teachers. Lemov knows that coaches face many of the same challenges found in the classroom, so the science of learning applies equally to them. Unfortunately, coaches and organizations have a mixed level of understanding of the research and study of the science of learning. Sometimes coaches and organizations build their teaching on myths and platitudes more than science. Sometimes there isn't any science applied at all. While there are thousands of books and websites a coach can consult to better understand technical and tactical aspects of the game, there is nothing for a coach to consult that explicitly examines the teaching problems on the field, the court, the rink, and the diamond. Until now. Intended to offer lessons and guidance that are applicable to coaches of any sporting endeavor including everyone from parent volunteers to professional coaches and private trainers, Lemov brings the powerful science of learning to the arena of sports coaching to create the next generation of championship caliber coaches.
