A Christian Theology of Religions Sep 28 2022 Renowned theologian and philosopher of religion John Hick takes a hard look at intellectual problems facing Christians in the late twentieth century: Where exactly does Christianity fit into the scheme of the world in light of other world religions? and Is it possible to remain Christian while accepting the truth of other beliefs? Employing the use of a dialogue between "Phil" (philosophy) and "Grace" (theology), Hick explores the validity of other religions and Christianity's place

among them. Offering good reasons for why the traditional stance that Christianity is the only true religion is no longer workable, he puts forth a cogent defense of Christianity in the global context of other religions. This book is must reading for those concerned about the uniqueness of Christianity and how it is to be interpreted theologically in today's world.

Knowing the Real Jun 01 2020 *Knowing the Real* analytically and critically approaches two themes central to John Hick's thought: the cognitivity of religions and religious pluralism. Hick's early attempts to conceive that which can count as a verifying eschatological experience led him to call for a Copernican revolution in theology. In response to criticism that this call aroused, Hick developed a theory of religious pluralism, based on a reading of Kant, that he calls the pluralistic hypothesis.

John Hick Nov 18 2021 From Yorkshire schoolboy to philosopher and theologian of international renown, John Hick tells his life story in this warm and absorbing autobiography.

Problems in the Philosophy of Religion Mar 30 2020 Hewitt is Executive VP of Chapman University. He is a graduate of Cornell College, Iowa, and of The Claremont Graduate University's Drucker Center, where he earned his MBA with a concentration in finance. John Hick is Danforth Professor Emeritus of Religion at Claremont Graduate School.

Death and Eternal Life Dec 19 2021 In this cross-cultural, interdisciplinary study, John Hick draws upon major world religions, as well as biology, psychology, parapsychology, anthropology, and philosophy, to explore the mystery of death. He argues that scientific and philosophical objections to the idea of survival after death can be challenged, and he claims that human inadequacy in facing suffering supports the basic religious argument for immortality.

Who Or what is God? Sep 23 2019 In *Who or What is God?* John Hick reflects on questions of the nature and the accessibility of God in the context of Christianity and other faith traditions. The essays in this book cover a wide range of issues centered on the search for truth, justice, and peace. This search concerns the ultimate reality to which the world's great religions point, involving discussion of religious experience, religious language, the relations between religions, death, and Christian belief. The book does not focus on theology of religions or religious pluralism - for which Hick is so well known - but on different, nevertheless related areas as the nature and accessibility of God, God's relevance for the meaning of life and eschatology, the reconstruction of Christian theology under contemporary conditions, and finally the need to combine spirituality with the search for social justice.

An Interpretation of Religion Jun 20 2019 An updated new edition of the groundbreaking investigation which takes full account of the finding of the social and historical sciences whilst offering a religious interpretation of the religions as different culturally conditioned responses to a transcendent Divine Reality. Written with great clarity and force, and with a wealth of fresh insights, this major work (based on the author's Gifford Lectures of 1896-7) treats the principal topics in the philosophy of religion and establishes both a basis for religious affirmation today and a framework for the developing world-wide inter-faith dialogue. Includes a new Introduction to the second edition.

The Metaphor of God Incarnate Apr 30 2020 In this groundbreaking work, John Hick refutes the traditional Christian understanding of Jesus of Nazareth. According to Hick, Jesus did not teach what was to become the orthodox understanding of him: that he was

God incarnate who became human to die for the sins of the world. Further, the traditional dogma of Jesus' two natures--human and divine--cannot be explained satisfactorily, and worse, it has been used to justify great human evils. Thus, the divine incarnation, he explains, is best understood metaphorically. Nevertheless, he concludes that Christians can still understand Jesus as Lord and the one who has made God real to us. This second edition includes new chapters on the Christologies of Anglican theologian John Macquarrie and Catholic theologian Roger Haight, SJ.

John Hick's Pluralist Philosophy of World Religions Aug 27 2022 This title was first published in 2002. One of the most fascinating and controversial interpretations of religious diversity is 'religious pluralism.' According to John Hick's model of religious pluralism, all the world's great religions are equally valid ways of understanding and responding to the ultimate spiritual reality. This book offers an exposition of, and critical response to, John Hick's model. Introducing the various interpretations of religious diversity being discussed today, this book presents constructive suggestions as to how things could be further developed to offer a more accurate, less confusing presentation of the various options in theology of religions. The standard threefold typology of responses to religious diversity - exclusivism, inclusivism, and pluralism - are explained and defended. Hick's pluralist interpretation of religious diversity is traced, culminating in a critical assessment of Hick's pluralistic model and an up-to-date summary of a variety of critiques directed toward Hick's proposal. Paul Rhodes Eddy concludes that Hick's present model is ultimately unsuccessful in retaining both of his long-cherished goals, a robust religious realism and a consistent religious pluralism, whilst overcoming the most difficult problem for the pluralist, the fact that the world's religions understand the divine in often contradictory ways.

Philosophy of Religion Jul 26 2022 A contemporary introduction to the main topics in the philosophy of religion written by a world-renowned philosopher.

The Depth of the Riches Oct 05 2020 A constructive new proposal for Christian dialogue with other faiths. Religious pluralism is today the most challenging issue facing traditional Christianity. This constructive work by a leading voice on the subjects of religious pluralism and interfaith relations probes the Christian understanding of God and salvation and offers a new perspective on religious pluralism that affirms unique salvation in Christ while also recognizing the religious ends of other faiths. The questions explored here are both difficult and enlightening. What is the distinctive nature of salvation? Is there a place in Christian theology for recognizing other religious ends in addition to salvation? In pursuit of meaningful answers, S. Mark Heim uses the classical doctrine of the Trinity to develop a theology that allows Christians to respect the possibility that alternative relations with God exist in other religions.

Dialogues in the Philosophy of Religion Apr 11 2021 This is a collection of John Hick's essays on the understanding of the world's religions as different human responses to the same ultimate transcendent reality. He is in dialogue with contemporary philosophers (some of whom contribute new responses); with Evangelicals; with the Vatican and other both Catholic and Protestant theologians. The book is alive with current argument for all those interested in contemporary philosophy of religion and theology.

The Myth of Christian Uniqueness Aug 03 2020 A new model of Christian theology, the 'pluralistic' model, is taking shape, moving beyond the traditional models of exclusivism (Christianity as the only true religion) and inclusivism (Christianity as the best religion)

toward a view that recognizes the possibility of many valid religions. In this volume, a widely representative group of eminent Christian theologians - Protestant and Catholic, male and female, from East and West, First and Third Worlds - explores genuinely new attitudes toward other believers and traditions, expanding and refining the discussion and debate over pluralistic theology. Contributors are: Gordon D. Kaufman, John Hick, Langdon Gilkey, Wilfred Cantwell Smith, Stanley J. Samartha, Raimundo Panikkar, Seiichi Yagi, Rosemary Radford Ruether, Marjorie Jewitt Suchocki, Aloysius Pieris, Tom F. Driver, and Paul F. Knitter. *Evil and the God of Love* Feb 27 2020

Christian Theology and Religious Pluralism Feb 21 2022 The question of religious pluralism is the most significant yet thorniest of issues in theology today, and John Hick (1922-2012) has long been recognized as its most important scholar. However, while much has been written analyzing the philosophical basis of Hick's pluralism, very little attention has been devoted to the theological foundations of his argument. Filling this gap, this book examines Hick's theological attempts to systematically deconstruct the church's traditional incarnational Christology. Special attention is given to evaluating Hick's foundational theses "that Jesus himself did not teach what was to become the orthodox Christian understanding of him" and "that the dogma of Jesus' two natures . . . has proved to be incapable of being explicated in any satisfactory way." By elucidating the ways in which Hick's arguments fail, David Nah demonstrates that Hick was unwarranted in breaking away from the church's incarnational Christology that has been at the core of Christianity for almost two thousand years.

The Rainbow of Faiths Aug 23 2019 Renowned theologian and philosopher of religion John Hick takes a hard look at intellectual problems facing Christians in the late twentieth century: Where exactly does Christianity fit into the scheme of the world in light of other world religions? and Is it possible to remain Christian while accepting the truth of other beliefs? A John Hick Reader Nov 06 2020 John Hick is one of the most widely read and discussed living writers in modern theology and the philosophy of religion. This book offers students a one volume textbook on his thought. Extracts from his writings cover all the various themes for which Hick has become known: Faith and Knowledge, Philosophy of Religion, Evil and the God of Love, Death and Eternal Life, The Myth of God Incarnate, and Problems of Religious Pluralism. The extracts are preceded by an introductory essay by Paul Badham on John Hick's philosophical theology, and on the integrity of his life and thought.

John Hick Dec 27 2019 John Hick is considered to be one of the greatest living philosophers of religion. Hick's philosophical journey has culminated in the grand proposal that we should see all the major world religions as equally valid responses to the same ultimate reality (the 'Real'). This book presents a critical introduction to John Hick's speculative theology and philosophy. The book begins where Hick began, with the problems of religious language, and ends where Hick is now, exploring the questions of religious

plurality. Incorporating early aspects that Hick himself would now wish to qualify, as well as explanations that reflect Hick's present focus, Cheetham offers some speculative reflections of his own on key topics, highlighting Hick's influence on contemporary theology and philosophy of religion. All those studying the work of this great philosopher and theologian will find this new introduction offers an invaluable overview along with fresh critical insight.

Religious Pluralism in Christian and Islamic Philosophy May 24 2022 This text compares the ideas of two contemporary philosophers, John Hick and Seyyed Hossein Nasr, on the issues of religion, religions, the concept of the ultimate reality, and the notion of sacred knowledge.

Between Faith and Doubt May 12 2021 This short book is a lively dialogue between a religious believer and a skeptic. It covers all the main issues including different ideas of God, the good and bad in religion, religious experience and neuroscience, pain and suffering, death and life after death, and includes interesting autobiographical revelations.

The Universe of Faiths Oct 17 2021 John Hick has been one of the most prominent, controversial and respected theologians to argue against the orthodox Christian position, this book takes up this stance by conducting an extensive analysis of Hick's thought from its earliest inception to its most recent expression.

John Hick Mar 22 2022 John Hick is one of the world's foremost theologians and philosophers of religion: his books feature on many comparative religion and philosophy courses and his theories and work in the field of race relations have earned him international acclaim. In this warm-hearted account, he tells his life story, from his schoolboy days in Yorkshire, through his conversion to evangelical fundamentalism, to his renunciation of this to become a staunch advocate of religious pluralism.

Disputed Questions in Theology and the Philosophy of Religion Jul 02 2020 Deals with today's disputed religious questions - whether religious language refers to a transcendent divine reality or only reflects our own ideals, whether religious experience is a proper ground of religious belief, and whether Jesus was God incarnate or a man especially open to God's spirit.

An Interpretation of Religion Oct 29 2022 In this classic work, prominent religious philosopher John Hick presents a global interpretation of religion, arguing for a religious response to our ambiguous universe and showing how the world's different religions are culturally conditioned forms of that response. For this Second Edition, Hick addresses the major critics of his interpretation of religion, thereby enabling fresh discussion of his work. Praise for the first edition: "This book strengthens Hick's position as one of the most significant thinkers of the second half of the twentieth century. . . . I highly recommend [it] to students of philosophy, history of religions, and comparative studies, as well as theology."—Chester Gillis, *Journal of Religion* "The most persuasive philosophical advocacy for religious pluralism ever written."—Yandall Woodfin, *Southwestern Journal of Theology* "[This work] evinces Hick's many virtues: ingenuity; fairness toward all arguments; deference to the standards of analytic philosophy; familiarity with Eastern as well as Western religions; and, not least, a clean, clear prose."—Robert A. Segal, *Christian Century* "A leader in interfaith interpretation of religion, Hick has written what will probably become a classic. . . . Clear, readable, and comprehensive."—*Library Journal* "Should be read by the adherents of all faiths."—Rabbi Dan Cohn-Sherbok

The Fifth Dimension Jul 22 2019 This innovative study tackles timeless spiritual issues, including what makes a saint saintly, and the science—religion debate.

Evil and the Evidence for God Oct 25 2019 How to reconcile the existence of evil with the belief in a benevolent God has long posed a philosophical problem to the system of Christian theism. John Hick's book, *Evil and the Love of God*, is perhaps the best known work to redress this difficulty in modern terms. Sharing Hick's interest in responding to the question of evil, R. Douglas Geivett constructs his own new "theodicy for today." But Geivett departs from Hick by embracing the Augustinian tradition of free will and returning the responsibility for evil to human beings themselves. Author note: R. Douglas Geivett is Associate Professor of Philosophy at Biola University in La Mirada, California.

Christology and Religious Pluralism Jan 08 2021 "There is no such thing as religion but religions; there is no such thing as theology or Christology but contextual theologies and Christologies." Christian absolutism, which gave foundation to John Hick's theocentrism finds itself on the opposite side, maintaining one religion, one God, one Christ, one Church and as such one way to salvation. Contrary though, reality is more than the Aristotelian-monarchical structure of Western philosophy and theology. Reality is not only one but many at the same time. They are in trans-communal relation with one another. Intercultural or inculturation theologies present a model for dialogue between religions and cultures, between the West and the rest of humanity. African Inculturation Christology present itself as model of the 21st century theology and emphasises the dignity of difference.

John Hick's Religious Pluralism in Global Perspective Aug 15 2021 This volume contains fresh scholarly contributions to mark the birth centenary of John Hick, the internationally well-known philosopher of religion, whose works continue to have significant global relevance in today's religiously diverse and conflict-ridden world. His writings have reset the parameters of religious pluralism. Up till now, Hick's religious pluralism has been mainly seen in relation to the Western context where Christianity is the predominant religion. This volume includes both Western and non-Western engagement with his thinking in contexts such as Japan, China, Korea, Nigeria, and India, where Christianity is a minority religion with little political power. Its distinctiveness lies in widening the debate on religious pluralism by bringing Hick's pluralistic hypothesis into a constructive cross-cultural and interreligious conversation with scholars of Hinduism, Jainism, Daoism, Judaism, Christianity, Islam and African traditional religions. In doing so, this collection examines how Hick's philosophy of religious pluralism has been received, appropriated and appraised by these scholars. It has been appreciated and critiqued in equal measure, and continues to impact on current thinking on religious pluralism. This volume makes a significant contribution to the debate initiated by Hick.

God, Truth, and Reality Sep 04 2020 All arts and sciences, in their own way, ultimately try to come to grips with reality. What sets philosophy, theology, and religion apart is that they grapple with ultimate reality. Over the decades spanned by John Hick's life, in the course of this grappling (reminiscent of Jacob's nocturnal encounter with the angel) philosophy became analytic, theology dialogical, and religion comparative along one line of development. In these essays, written in honour of Professor Hick, leading world scholars in these fields share their most recent insights. They are, so to speak, postcards from the cutting edge.

Problems of Religious Pluralism Feb 09 2021

God and the Universe of Faiths Jan 20 2022 Hick addresses many of the major issues posing challenges to contemporary Christian belief, and offers his much-debated proposal for a Copernican revolution in our understanding of Christianity and the wider religious life of humanity.

A John Hick Reader Jan 28 2020 "Canonical criticism" is not a recognized branch of biblical studies--granting new focus to questions of the authority and truth of the scriptural writings. Developed within a critical sense of the dominant historical-critical tone of biblical studies, canonical criticism as it has been pursued by the American scholars Brevard S. Childs and James A. Sanders stands as witness to the theological necessity of a more literary approach to the Bible. This book both criticizes the "canonical" enterprise, and takes it much further into readings of the canon from the perspective not only of literature, but also art, and in particular the biblical art of Rembrandt. In addition, it remains acutely conscious of the contemporary environment of our reading within the political concerns of feminist criticism, popular absorption in film and the narratives of the screen, and finally the crisis, or crises, which characterize the so-called "postmodern condition." What emerges is at once highly critical of traditional strategies of canonization, and at the same time constructive and concerned to recover the Bible for our own time in readings which move outside the limited academic concerns of the biblical critic or the institutions of the church and religious community.

Christianity and Other Religions Nov 25 2019 Edited by two of the most prominent names in interfaith dialogue, this is an

introduction to the complex relationships between Christianity and the other world faiths. Featuring essays from some of the key thinkers in the Christian faith. It covers both Catholic and Protestant approaches, and features all the rival points of view, including the uncompromising absolutism of Karl Barth and Pope John Paul II, the more ecumenical approaches of Karl Rahner and Hans Kung, and the religious pluralism of Wilfred Cantwell Smith and John Hick, among others.

The Fifth Dimension Dec 07 2020 The case for a bigger, more complete picture of reality in which a fifth, spiritual dimension plays a central role. Many of us today are all too willing to accept a humanist and scientific account of the universe which considers human existence as a fleeting accident. The triumph of John Hick's gripping work is his exposure of the radical insufficiency of this view. Drawing on mystical and religious traditions ancient and modern, and spiritual thinkers as diverse as Julian of Norwich and Mahatma Gandhi, he has produced a tightly argued and thoroughly readable case for a bigger, more complete, picture of reality in which a fifth, spiritual dimension, plays a central role. 'Essential reading for anyone concerned with spirituality in the modern world' Professor Keith Ward, University of Oxford Erudite, provocative and deeply moving, Hick's persuasive narrative will prompt all curious readers to re-examine their own spiritual horizons. This stimulating book opens up many fundamental issues that must concern everyone. It deserves to be widely read. 'Expository Times' 'Learned, lucid and engaging, easy to read and easy to applaud for its sheer clarity of style and its breadth of interest, even when one disagrees with it!' Anvil

Faith and Knowledge Mar 10 2021 In this revision of his widely read study, John Hick has taken advantage of constructive comments on the first edition to make the book more useful. New material has been added and the overall structure of the volume has been changed to strengthen it both as an introduction to the problem of religious knowledge and as an exposition of the view of faith that seems to him most adequate. There is a new chapter on the Thomist-Catholic view of faith; a new treatment of the controversial notion of eschatological verification, taking account of various published critiques of the concept; and a new section on the way in which the Christian faith-awareness of God expresses itself in a distinctive way of life.

An Anthropological Approach to Theology Sep 16 2021 Heather Meacock, in *An Anthropological Approach to Theology*, has compiled an argument, based upon the pluralist beliefs of Professor John Hick, for the revision of traditional Christianity. Hick's pluralist understanding of the theology of religions is influenced by the philosophy of Kant, and his theories about society's moral awareness. Meacock methodically explicates Hick's views while refuting his critics. She claims that some Christian doctrines, such as the Incarnation, lose meaning when interpreted literally, and that Christianity itself must begin to change its self-perception to that of one among many world religions. This book will interest students of religion, philosophy, as well as anthropologists interested in religion.
