The Ballad of the White Horse Jul 20 2021 The Ballad of the White Horse is a poem by G. K. Chesterton about the idealized exploits of the Saxon King Alfred the Great. Written in ballad form, the work is usually considered one of the last great traditional epic poems ever written in the English language. The poem narrates how Alfred was able to defeat the invading Danes at the Battle of Ethandun under the auspices of God working through the agency of the Virgin Mary. In addition to being a narration of Alfred's military and political accomplishments, it is also considered a Catholic allegory. Chesterton incorporates a significant amount of philosophy into the basic structure of the story. Aeterna Press

The White Horse King Jun 18 2021 The unlikely king who saved England. Down swept the Vikings from the frigid North. Across the English coastlands and countryside they raided, torched, murdered, and destroyed all in their path. Farmers, monks, and soldiers all fell bloody under the Viking sword, hammer, and axe. Then, when the hour was most desperate, came an unlikely hero. King Alfred rallied the battered and bedraggled kingdoms of Britain and after decades of plotting, praying, and persisting, finally triumphed over the invaders. Alfred's victory reverberates to this day: He sparked a literary renaissance, restructured Britain's roadways, revised the legal codes, and revived Christian learning and worship. It was Alfred's accomplishments that laid the groundwork for Britain's later glories and triumphs in literature, liturgy, and liberty. "Ben Merkle tells the sort of mythic adventure story that stirs the imagination and races the heart?and all the more so knowing that it is altogether true!" ?George Grant, author of *The Last Crusader* and *The Blood of the Moon*

Some street kids are after him for something he didn't even do. So Alfred begins going to Donatelli's Gym, a boxing club in Harlem that has trained champions. Beauty and Holiness Feb 24 2022 In this broad historical and critical overview based on a lifetime of scholarship, James Alfred Martin, Jr., examines the development of the concepts of beauty and holiness as employed in theories of aesthetics and of religion. The injunction in the Book of Psalms to "worship the Lord in the beauty of holiness" addressed a tradition that has comprehended holiness primarily in terms of ethical righteousness—a conception that has strongly influenced Western understandings of religion. As the author points out, however, the Greek forbears of Western thought, as well as many Eastern traditions, were and are more broadly concerned with the pursuit of beauty, truth, and goodness as ideals of human excellence, that is, with the "holiness of beauty." In this work Martin describes a philosophical stance that should prove to be most productive for the dialogue between aesthetics and religion. Beginning with the treatment of beauty and holiness in Hebrew, Greek, and classical Christian thought, the author traces the emergence of modern theories of aesthetics and religion in the Enlightenment. He then outlines the role of aesthetics in the theories of religion proposed by Otto, Eliade, van der Leeuw, and Tillich, in the cultural anthropology of Geertz, and in the thought of Santayana, Dewey, Whitehead, Heidegger, and Wittgenstein. In a global context Martin explores the relation of aesthetic theory to religious thought in the traditions of India, China, and Japan and concludes with reflections on the viability of modern aesthetic and religious theory in the light of contemporary cultural and methodological pluralism. Exit, Voice, and Loyalty Dec 13 2020 An innovator in contemporary thought on economic and political development looks here at decline rather than growth. Albert O. Hirschman makes a basic distinction between alternative ways of reacting to deterioration in business firms and, in general, to dissatisfaction with organizations: one, "exit," is for the member to quit the organization or for the customer to switch to the competing product, and the other, "voice," is for members or customers to agitate and exert influence for change "from within." The efficiency of the competitive mechanism, with its total reliance on exit, is questioned for certain important situations. As exit often undercuts voice while being unable to counteract decline, loyalty is seen in the function of retarding exit and of permitting voice to play its proper role. The interplay of the three concepts turns out to illuminate a wide range of economic, social, and political phenomena. As the author states in the preface, "having found my own unifying way of looking at issues as diverse as competition and the two-party system, divorce and the American character, black power and the failure of 'unhappy' top officials to resign over Vietnam, I decided to let myself go a little."

Berlin Alexanderplatz Feb 12 2021 Alfred Döblin (1878-1957) studied medicine in Berlin and specialized in the treatment of nervous diseases. Along with his experiences as a psychiatrist in the workers' quarter of Berlin, his writing was inspired by the work of Holderlin, Schopenhauer and Nietzsche and was first published in the literary magazine, *Der Sturm*. Associated with the Expressionist literary movement in Germany, he is now recognized as one of the most important modern European novelists. *Berlin Alexanderplatz* is one of the masterpieces of modern European literature and the first German novel to adopt the technique of James Joyce. It tells the story of Franz Biberkopf, who, on being released from prison, is confronted with the poverty, unemployment, crime and burgeoning Nazism of 1920s Germany. As Franz struggles to survive in this world, fate teases him with a little pleasure before cruelly turning on him. Foreword by Alexander Stephan

The Generic Closet Jan 26 2022 Even after a rise in gay and Black representation and production on TV in the 1990s, the sitcom became a "generic closet," restricting Black gay characters with narrative tropes. Drawing from 20 interviews with credited episode writers, key show-runners, and Black gay men, *The Generic Closet* situates Black-cast sitcoms as a unique genre that uses Black gay characters in service of the series' heterosexual main cast. Alfred L. Martin, Jr., argues that the Black community is considered to be antigay due to misrepresentation by shows that aired during the family viewing hour and that were written for the imagined, "traditional" Black family. Martin considers audience reception, industrial production practices, and authorship to unpack the claim that Black gay characters are written into Black-cast sitcoms such as *Moesha*, *Good News*, and *Let's Stay Together* in order to closet Black gayness. By exploring how systems of power produce ideologies about Black gayness, *The Generic Closet* deconstructs the concept of a monolithic Black audience and investigates whether this generic closet still exists.
