More Than Just a Game Sep 20 2019 More Than Just a Game tracks the explosion of the sports industry in the United States since 1945 and how it has shaped class, racial, gender, and national identities. By examining both professional and intercollegiate sports such as baseball, football, basketball, golf, tennis, and stock car racing, Kathryn Jay looks at the impact of packaging, salary, hype, corporate sponsorship, drug use, and the presence of women and African American players. Jay also considers the persistent belief that sports encourage good citizenship and morality despite a rise in cheating and violent behavior and an unabashed emphasis on financial gain. More Than Just a Game is a fascinating exploration of a phenomenon that has engaged the American imagination and thrilled fans for decades.

Swoon: Great Seducers and Why Women Love Them Apr 20 2022 "Lose yourself: Swoon has wicked fun answering that age-old query: What do women want?"—Chicago Tribune Contrary to popular myth and dogma, the men who consistently beguile women belie the familiar stereotypes: satanic rake, alpha stud, slick player, Mr. Nice, or big-money mogul. As Betsy Prioleau, author of Seductress, points out in this surprising, insightful study, legendary ladies' men are a different, complex species altogether, often without looks or money. They fit no known template and possess a cache of powerful erotic secrets. With wit and erudition, Prioleau cuts through the cultural lore and reveals who these master lovers really are and the arts they practice to ensnare women. What she discovers is revolutionary. Using evidence from science, popular culture, fiction, anthropology, and history, and from interviews with colorful real-world ladykillers, Prioleau finds that great seducers share a constellation of unusual traits. While these men run the gamut, they radiate joie de vivre, intensity, and sex appeal: above all, they adore women. They listen, praise, amuse, and delight, and they know their way around the bedroom. And they've finessed the hardest part: locking in and revving desire. Women never tire of these fascinators and often, like Casanova's conquests, remain besotted for life. Finally, Prioleau takes stock of the contemporary culture and asks: where are the Casanovas of today? After a critique of the twenty-first-century sexual malaise—the gulf between the sexes and women's record discontent—she compellingly argues that society needs ladies' men more than ever. Groundbreaking and provocative, Swoon is underpinned with sharp analysis, brilliant research, and served up with seductive verve.

Sports and The Global South Jul 19 2019 This book reimagines the pleasures of sports and provides a critical perspective from the Global South. Analysing the spread of sports markets in Sri Lanka along with a range of struggles, the book highlights how the celebration of 'sportive nationalism,' promoting sports markets in the Global South reinforces patriarchal ethno-nationalist authoritarian sports cultures. By explaining how the realm of social reproduction involving households and communities is integral for play and sports, the book challenges the market-driven 'sports and development' agenda while arguing for a 'sports commons.' By foregrounding issues of justice and care, the book highlights how struggles for recognition, redistribution and representation are central to reimagining sports within an alternative notion of work, play and resistance.

The SOLOMON SEDUCTION Nov 15 2021 Have you found yourself in circumstances you never envisioned, tangled up with people you never approved of, and doing things you never imagined? It seems impossible that the valedictorian of the entire human race would ruin his life by making dumb choices, but Solomon did. Solomon was better equipped to see through Satan's deceptions than any man who has ever lived, other than Jesus. But in the end, he became just as blind to them as everyone else. Pay attention to the news and you'll see that it's not just the numbskulls that fall into Satan's traps. It's also the best and brightest of America's fathers, husbands, and sons. Many smart guys who love God end up being ashamed and humiliated by Satan's seductions. With humor, grace, and a pastor's heart, Mark Atteberry seeks to offer practical suggestions on how to avoid a similar fate. His prayer for readers is to experience a wake-up call to move forward and determined on an upward path.

Terminal Identity Oct 22 2019 Scott Bukatman's *Terminal Identity*--referring to both the site of the termination of the conventional "subject" and the birth of a new subjectivity constructed at the computer terminal or television screen--puts to rest any lingering doubts of the significance of science fiction in contemporary cultural studies. Demonstrating a comprehensive knowledge, both of the history of science fiction narrative from its earliest origins, and of cultural theory and philosophy, Bukatman redefines the nature of human identity in the Information Age. Drawing on a wide range of contemporary theories of the postmodern--including Fredric Jameson, Donna Haraway, and Jean Baudrillard--Bukatman begins with the proposition that Western culture is suffering a crisis brought on by advanced electronic technologies. Then in a series of chapters richly supported by analyses of literary texts, visual arts, film, video, television, comics, computer games, and graphics, Bukatman takes the reader on an odyssey that traces the postmodern subject from its current crisis, through its close encounters with technology, and finally to new self-recognition. This new "virtual subject," as Bukatman defines it, situates the human and the technological as coexistent, codependent, and mutually defining. Synthesizing the most provocative theories of postmodern culture with a truly encyclopedic treatment of the relevant media, this volume sets a new standard in the study of science fiction--a category that itself may be redefined in light of this work. Bukatman not only offers the most detailed map to date of the intellectual terrain of postmodern technology studies--he arrives at new frontiers, providing a propitious launching point for further inquiries into the relationship of electronic technology and culture.

Acts of Abuse Nov 22 2019 Sexual crime is a topic of massive public concern. Yet the debate over its causes and the appropriate responses of the criminal justice system is often fuelled by ignorance and prejudice, with little understanding of the reality of sexual crime. *Acts of Abuse* explores the response of the criminal justice system to this important issue. Its author, Adam Sampson, examines the existing research about the causes of rape and child abuse, the number of offences being committed, and the policy of the courts. He then examines in detail the responses of the probation service and the prison system to the increased number of offenders with which they are being required to deal. Written by a prominent critic of the British penal system, this is the first comprehensive survey of the phenomenon of sexual crime in the British penal context. It will appeal to students and all those with an interest in issues relating to crime and justice.

The Silent Seduction of Self-Talk Dec 16 2021 We speak to ourselves at a rate of 1,300 words per minute, making constant assessments and judgments often filtered through sinful and selfish agendas. Women acknowledge that they are particularly vulnerable to this temptation and dangers of self-talk as they compare and judge themselves against others. *The Silent Seduction of Self-Talk* provides a readable narrative and practical tools that help readers surface the inner conflicts that churn below the waterline of their awareness. These dialogues can make them blind to the Scriptural truth that the vision they hold of themselves and the reality of their walk in Christ are often polar opposites. Shelley explores real-life examples and includes tools to assist in the spiritual disciplines of self-assessment, repentance, commitment, and transformation.
