The Art of Small Things Jun 13 2021 This richly illustrated book celebrates the art of the miniature, but also looks beyond it at the many aspects of "small worlds"--in particular, their capacity to evoke responses that far exceed their physical dimensions. Mack explores the talismanic, religious, or magical properties

with which miniatures are often imbued. Considering a wide range of objects, he examines the use of the miniature form in various cultural contexts.

The Dublin University Magazine Feb 09 2021

Guerrilla Metaphysics May 24 2022 In *Guerrilla Metaphysics*, Graham Harman develops further the object-oriented philosophy first proposed in *Tool-Being*. Today's fashionable philosophies often treat metaphysics as a petrified relic of the past, and hold that future progress requires an ever further abandonment of all claims to discuss reality in itself. *Guerrilla Metaphysics* makes the opposite assertion, challenging the dominant "philosophy of access" (both continental and analytic) that remains quarantined in discussions of language, perception, or literary texts. Philosophy needs a fresh resurgence of the things themselves—not merely the words or appearances themselves. Once these themes are adapted to the needs of an

object-oriented philosophy, what emerges is a brand new type of metaphysics—a "guerrilla metaphysics."

Summa Theologica: Third Part of the Second Part Oct 05 2020

The fourth volume in this epic and classic undertaking by one of the most notable theologians of the Roman Catholic Church. This volume features theological considerations towards such topics as Virtues, Fortitude and Temperance, Graces and States of Life and other important topics that we often take for granted in our thinking in the church and in worship towards God. These topics must be carefully considered if we are to ever have a deep understanding and love of the one true God and his son Jesus Christ.

Collected Articles on the Existence of God Aug 15 2021

The twentieth century witnessed an explosion of scholarly interest in the philosophical thought of St Thomas Aquinas. One of the fruits of that Thomistic revival was an uncovering of St

Thomas's original contributions to many areas of philosophy, not least metaphysics. In the twenty first century, there has been renewed interest in Aquinas's argumentation for the existence of God. This interest flows from an engagement with the work of the twentieth century scholars in presenting Aquinas's own characteristic metaphysics. What we have seen is an interpretation and presentation of Aquinas's proofs for God's existence in terms of Thomas's unique insights into the nature of being and the metaphysical structure of reality. Gaven Kerr has been one such author who has contributed in numerous ways to the revival of interest in Aquinas's argumentation for the existence of God and its metaphysical buttressing. Over the last ten years Kerr has published articles on Aquinas's various proofs for God's existence and the metaphysics standing behind those proofs; this volume draws together those articles. Herein are included Kerr's articles on per se ordered series, existential

inertia, the proof in *De Ente et Essentia*, the argument from motion in the *Summa Contra Gentiles*, and the five ways themselves. Kerr has also written two new articles for this volume: one on the possibility of demonstrating God's existence, and the other on how to move from God's existence to God's nature. This volume offers an overview of Kerr's thinking over the last decade on Aquinas's thought on the existence of God.

**The Allure of Things:
Process and Object in
Contemporary Philosophy**

Oct 29 2022 Explores the new directions that open up in metaphysics once the Kantian correlationist subject is understood and argued against.

Geontologies Jun 01 2020 In *Geontologies* Elizabeth A. Povinelli continues her project of mapping the current conditions of late liberalism by offering a bold retheorization of power. Finding Foucauldian biopolitics unable to adequately reveal contemporary mechanisms of

power and governance, Povinelli describes a mode of power she calls geontopower, which operates through the regulation of the distinction between Life and Nonlife and the figures of the Desert, the Animist, and the Virus. *Geontologies* examines this formation of power from the perspective of Indigenous Australian maneuvers against the settler state. And it probes how our contemporary critical languages—anthropogenic climate change, plasticity, new materialism, antinormativity—often unwittingly transform their struggles against geontopower into a deeper entwinement within it. A woman who became a river, a snakelike entity who spawns the fog, plesiosaurus fossils and vast networks of rock weirs: in asking how these different forms of existence refuse incorporation into the vocabularies of Western theory Povinelli provides a revelatory new way to understand a form of power long self-evident in certain regimes of settler late

liberalism but now becoming visible much further beyond. *University Magazine* Mar 10 2021

The Allure of Gentleness Mar 22 2022 The revered Christian author whose bestselling classics include *The Divine Conspiracy* and *The Spirit of the Disciplines* provides a new model for how we can present the Christian faith to others. When Christians share their faith, they often appeal to reason, logic, and the truth of doctrine. But these tactics often are not effective. A better approach to spread Christ's word, Dallas Willard suggests, is to use the example of our own lives. To demonstrate Jesus's message, we must be transformed people living out a life reflective of Jesus himself, a life of love, humility, and gentleness. This beautiful model of life—this allure of gentleness—Willard argues, is the foundation for making the most compelling argument for Christianity, one that will convince others that there is something special about Christianity and the Jesus we

follow.

Allure of the Vampire King

Mar 30 2020 I'm no one—just a magic-less woman who fled the supernatural world after being dumped and humiliated by the most powerful vampire in Britain. He made me a laughing stock, a cautionary tale. I had no choice but to leave. That was a long time ago. I got over the betrayal. Now, I'm on the mend. But when an assassin tracks me down to London, claiming that a deadly power thrums beneath my veins, only one person is strong enough to save my hide: Valentine Sargon—the Vampire King who stole my virginity and broke my heart. He will help, but only if I move into a safe house. With him. Valentine is as handsome as the devil, silver-tongued and seductive as sin. I don't trust him or the way he hungers for my blood. But I've run out of choices and can't refuse.

The Cosmic Spirit Jul 26 2022

Are we more than stardust? Is the appearance of the fragile Earth in the vast universe more than an accident? Are we not children of a Spirit that pervades the dust, rejuvenates life, and embraces the ever-evolving universe? Is there a cosmic Spirit that wants us to awaken to a consciousness of universal meaning, sacred purpose, and mutual friendship with all beings? This book answers these questions with a spirituality of the numinous in our relation to the elements of the Earth in the matrix of the multiverse by taking you on a journey through nine paths and nineteen meditations of awakening. Not bound by any religion, but in deep appreciation of the religious and spiritual heritage of human encounters with the divine depth of existence in our selves and in nature, they invite you to become sojourners by engaging the most profound embodiments of the intangible Spirit by which it facilitates its own materialization in the cosmos and our spiritualization

of the cosmos. Use—says this Spirit—the stardust that you are to become a spirit-faring species in an eternal journey of the cosmos to realize its ultimate motive of existence—the attraction of love!

Ethical Responses to Nature's Call Aug 23 2019

Arguing for a renewed view of objects and nature, Ethical Responses to Nature's Call considers how it is possible to understand our ethical duties - in the form of ethical intuitionism - to nature and the planet by listening to and releasing ourselves over to the call or address of nature. Blending several strands of philosophical thought, such as Graham Harman's Object-Oriented Ontology, W. D. Ross's prima fathics, Alphonso Lingis's phenomenological ethics traceable to The Imperative, and Michael Bonnett's ecophilosophy, this book offers a unique rejoinder to the problems and issues that

continue to haunt humans' relationship to nature. The origins of such problems and issues largely remain obscured from view due to the oppressive influence of the "Cultural Framework" which gives form and structure to the ways we understand, discourse on, and comport ourselves in relation to the natural world. Through understanding this "Cultural Framework" we also come to know the responses we continue to offer in answer to nature's call and address, and are then in a position to analyze and assess those responses in terms of their potential ethical weight. Such a phenomenon is made possible through the descriptive-and-interpretive method of eco-phenomenology. This renewed vision of the human-and-nature provides direction for our interaction with and behavior toward nature in such a way that the ethical insight offers a diagnosis and provides a potentially compelling prescriptive for environmental ills.

[Hiding from Humanity](#) Jan 08

2021 Assembling a rich variety of philosophical, psychological and historical references, one of America's most influential philosophers presents a critique of the role that shame and disgust play in our lives and, in particular, in the law.

The Swedenborg Concordance: a Complete Work of Reference to the Theological Writings of Emanuel Swedenborg Apr 11 2021

Depths As Yet Unspoken Sep

28 2022 Whitehead's thought continues to attract attention in mathematics and metaphysics, but few have recognized with Roland Faber, the deeply mystical dimensions of his philosophy. "If you like to phrase it so," Whitehead states, "philosophy is mystical. For mysticism is direct insight into depths as yet unspoken." Where, however, do these unspoken depths speak in Whitehead, and what are their associated themes in his philosophy? For the first time, **Depths As Yet Unspoken**

gathers together Faber's most compelling writings on Whitehead's mutually immanent themes of mysticism, multiplicity, and divinity. In dialogue with a diversity of voices, from process philosophers and theologians, to mystical and poststructuralist thinkers, Faber creatively articulates Whitehead's "theopoetic" process cosmogony in its relevance to metaphysics, cosmology, everyday experience, religious pluralism, and interreligious violence, spirituality, and longstanding concerns of the theological tradition, including creation, the Trinity, revelation, religious experience, and divine mystery. Although Whitehead's mystical inclinations may not be obvious at first, they in fact constitute the apophatic backdrop to his entire philosophical corpus. Through Faber's work, Whitehead's philosophy is revealed to be nothing short of a remarkable endeavor to speak to the unfathomable depth of things.

Allure Jun 25 2022 Legendary fashion maven Diana

Vreeland at the urging of her editor Jackie Oauthored a classic volume in the 1980s on the quality of "allure" in fashion and in life. Now back in print, this new edition features a foreword from the incomparable fashion designer Marc Jacobs. Throughout *Allure*, Vreeland lends her famous knack for turning a phrase to an astonishing array of fashion, celebrity, and fine art photographs. Featuring images of such luminaries as Maria Callas, Gertrude Stein, and Marilyn Monroeshot by superstar photographers such as Man Ray, Cecil Beaton, and Richard Avedon *Allure* is poised to deliver Vreeland's unparalleled point of view to a whole new generation.

The Allure of the Archives

Jun 20 2019 DIVArlette Farge's *Le Goût de l'archive* is widely regarded as a historiographical classic. While combing through two-hundred-year-old judicial records from the Archives of the Bastille, historian Farge was struck by the extraordinarily intimate portrayal they provided of the

lives of the poor in pre-Revolutionary France, especially women. She was seduced by the sensuality of old manuscripts and by the revelatory power of voices otherwise lost. In *The Allure of the Archives*, she conveys the exhilaration of uncovering hidden secrets and the thrill of venturing into new dimensions of the past. Originally published in 1989, Farge's classic work communicates the tactile, interpretive, and emotional experience of archival research while sharing astonishing details about life under the Old Regime in France. At once a practical guide to research methodology and an elegant literary reflection on the challenges of writing history, this uniquely rich volume demonstrates how surrendering to the archive's allure can forever change how we understand the past./div *Pantologia* Nov 18 2021 *The Allure of Battle* Jul 22 2019 History has tended to measure war's winners and losers in terms of its major engagements, battles in which

the result was so clear-cut that they could be considered "decisive." Cannae, Konigsberg, Austerlitz, Midway, Agincourt-all resonate in the literature of war and in our imaginations as tide-turning. But these legendary battles may or may not have determined the final outcome of the wars in which they were fought. Nor has the "genius" of the so-called Great Captains - from Alexander the Great to Frederick the Great and Napoleon - play a major role. Wars are decided in other ways. Cathal J. Nolan's *The Allure of Battle* systematically and engrossingly examines the great battles, tracing what he calls "short-war thinking," the hope that victory might be swift and wars brief. As he proves persuasively, however, such has almost never been the case. Even the major engagements have mainly contributed to victory or defeat by accelerating the erosion of the other side's defences. Massive conflicts, the so-called "people's wars," beginning with Napoleon and continuing until

1945, have consisted of and been determined by prolonged stalemate and attrition, industrial wars in which the determining factor has been not military but matériel. Nolan's masterful book places battles squarely and mercilessly within the context of the wider conflict in which they took place. In the process it help corrects a distorted view of battle's role in war, replacing popular images of the "battles of annihilation" with somber appreciation of the commitments and human sacrifices made throughout centuries of war particularly among the Great Powers. Accessible, provocative, exhaustive, and illuminating, *The Allure of Battle* will spark fresh debate about the history and conduct of warfare. *Invisible* Apr 23 2022 Science is said to be on the verge of achieving the ancient dream of making objects invisible. *Invisible* is a biography of an idea, tied to the history of science over the longue durée. Taking in Plato to today's science, Ball shows us that the

stories we have told about invisibility are not in fact about technical capability but about power, sex, concealment, morality, and corruption. Precisely because they refer to matters that lie beyond our senses, unseen beings and worlds have long been a repository for hopes, fears, and suppressed desires. Ideas of invisibility are, like all ideas rooted in legend, ultimately parables about our own potential and weaknesses. Invisible presents the first comprehensive survey of the roles that the idea of invisibility has played throughout time and culture. This territory takes us from medieval grimoires to cutting-edge nanotechnology, from fairy tales to telecommunications, from camouflage to early cinematography, and from beliefs about ghosts to the dawn of nuclear physics and the discovery of dark energy. Invisible reveals what our age-old fantasies about what lurks unseen, and whether we can enter that realm ourselves, truly say about us.
