Battleground Oct 29 2019 Tony Abbott came to office lauded as the most effective leader of the opposition since Whitlam, but the signs of an imperfect transition to the prime ministership would soon emerge. Why did Abbott fail to grow into the job to which he had aspired for decades? Backbenchers complained about the leader's office, the lack of access, front benchers leaked about cabinet processes to the media. His long apprenticeship in religion, journalism and political life prepared him for neither the mundane business of people management nor the commanding heights of national leadership. Public goodwill evaporated after a tough first budget the government failed to explain. Inside the Liberal party individual ambitions and a succession of poor polls produced increasing concern that the next election was lost. As a result, the horse named self-interest won yet again.

State of Emergency Nov 10 2020 The book behind the major new BBC2 series The Seventies In the early 1970s, Britain seemed to be tottering on the brink of the abyss. Under Edward Heath, the optimism of the Sixties had become a distant memory. Now the headlines were dominated by strikes and blackouts, unemployment and inflation. As the world looked on in horrified fascination, Britain seemed to be tearing itself apart. And yet, amid the gloom, glittered a creativity and cultural dynamism that would influence our lives long after the nightmarish Seventies had been forgotten. In this brilliant new history, Dominic Sandbrook recreates the gaudy, schizophrenic atmosphere of the early Seventies: the world of Enoch Powell and Tony Benn, David Bowie and Brian Clough, Germaine Greer and Mary Whitehouse. An age when the unions were on the march and the socialist revolution seemed at hand, but also when feminism, permissiveness, pornography and environmentalism were transforming the lives of millions. It was an age of miners' strikes, tower blocks and IRA atrocities, but it also gave us celebrity footballers and high-street curry houses, organic foods and package holidays, gay rights and glam rock. For those who remember the days when you could buy a new colour television but power cuts stopped you from watching it, this book could hardly be more vivid. It is the perfect guide to a luridly colourful Seventies landscape that shaped our present from the financial boardroom to the suburban bedroom.

Delegation and Accountability in Parliamentary Democracies Mar 27 2022 Comparative Politics is a series for students and teachers of political science that deals with contemporary issues in comparative government and politics. The General Editors are Max Kaase, Professor of Political Science, Vice President and Dean, School of Humanities and Social Science, International University Bremen, Germany; and Kenneth Newton, Professor of Comparative Politics, University of Southampton. The series is published in association with the European Consortium for Political Research. Today, parliamentarism is the most common form of democratic government. Yet knowledge of this regime type has been incomplete and often unsystematic. Delegation and Accountability in Parliamentary Democracies offers new conceptual clarity on the topic. This book argues that representative democracies can be understood as chains of delegation and accountability between citizens and politicians. Under parliamentary democracy, this chain of delegation is simple but also long and indirect. Principal-agent theory helps us to understand the perils of democratic delegation, which include the problems of adverse selection and moral hazard. Citizens in democratic states, therefore, need institutional mechanisms by which they can control their representatives. The most important such control mechanisms are on the one hand political parties and on the other external constraints such as courts, central banks, referendums, and supranational institutions such as those of the European Union. Traditionally,

parliamentary democracies have relied heavily on political parties and presidential systems more on external constraints. This new empirical investigation includes all seventeen West European parliamentary democracies. These countries are compared in a series of cross-national tables and figures, and seventeen country chapters provide a wealth of information on four discrete stages in the delegation process: delegation from voters to parliamentary representatives, delegation from parliament to the prime minister and cabinet, delegation within the cabinet, and delegation from cabinet ministers to civil servants. Each chapter illustrates how political parties serve as bonding instruments which align incentives and permit citizen control of the policy process. This is complemented by a consideration of external constraints. The concluding chapters go on to consider how well the problems of delegation and accountability are solved in these countries. They show that political systems with cohesive and competitive parties and strong mechanisms of external constraint solve their democratic agency problems better than countries with weaker control mechanisms. But in many countries political parties are now weakening, and parliamentary systems face new democratic challenges. *Delegation and Accountability in Parliamentary Democracies* provides an unprecedented guide to contemporary European parliamentary democracies. As democratic governance is transformed at the dawn of the twenty-first century, it illustrates the important challenges faced by the parliamentary democracies of Western Europe.

Margaret Thatcher May 17 2021 "With unequaled authority and dramatic detail, the first volume of Charles Moore's authorized biography of Margaret Thatcher reveals as never before the early life, rise to power, and first years as prime minister of the woman who transformed Britain and the world in the late twentieth century, "--NovelList.

Revitalising the Chamber Apr 03 2020 This report makes recommendations to improve the process by which Members learn and develop their careers. If implemented the recommendations would mean: extending the period between a General Election and the date of first sitting, to allow for a longer period of induction; allocating part of most question times to topical questions; extra debates on topical matters on a weekly basis; shorter debates on most general issues and some legislation; a weekly half-hour slot for debating Select Committee Reports; more comprehensible motions; shorter speeches; greater flexibility on time limits on speeches; and the reintroduction, on a trial basis, of Private Members' Motions in Westminster Hall.

The French Parliament and the European Union Jul 31 2022 This book explores how the European Union has changed the French Parliament since 1992. It supports the view that the institutional adaptation of both assemblies to European affairs is largely superficial as it lacks a genuine involvement from members of parliament. Nevertheless, the role of backbenchers has changed in the context of European integration. New ways of behaving, thinking and representing have emerged. From specialized representatives to constituency members, from presidential aspirants to Eurosceptic sovereigntists, French national parliamentarians have adapted differently to the EU. Far beyond the sole scrutiny of European draft legislation, the book provides a comprehensive map of this changing environment. It supports the view that the process has been driven by the search for day-to-day emotional gratifications rather than utilitarian strategies.

The Last Lion: Winston Spencer Churchill Feb 23 2022 Winston Spencer Churchill: Alone, 1932-1940 is the second volume of the outstanding three volume *The Last Lion*, the ultimate Churchill biography from the award-winning historian, William Manchester. In this triumphant biography, William Manchester, contends that Churchill's lonely battle against appeasement, even more than his leadership in war, was the Last Lion's finest hour. Politically isolated in Parliament, sometimes jeered at and scorned when he warned of the growing Nazi threat, Churchill stood alone, a beacon of hope amid the gathering storm.

Statesman of Europe Jan 01 2020 A NEW STATESMAN BOOK OF THE YEAR 2020 'The lamps are going out all over Europe. We shall not see them lit again in our life-time.' The words of Sir Edward Grey, looking out from the windows of the Foreign Office in early August 1914, are amongst the most famous in European history, and encapsulate the impending end of the nineteenth-century world. The man who spoke them was Britain's longest-ever serving Foreign Secretary (in a single span of office) and one of the great figures of late Victorian and Edwardian Britain. *Statesman of Europe* is a magnificent portrait of an age and describes the three decades before the First World War through the prism of his biography, which is based almost entirely on archival sources and presents a detailed account of the main domestic and international events, and of the main personalities of the era. In particular, it presents a fresh understanding of the approach to war in the years and months before its outbreak, and Grey's role in the unfolding of events.

That Thing About You Oct 02 2022 What if co-incidences in our lives are nothing but a result of a dice thrown by some higher being? What if, to the heavens, our lives are nothing but rows of dominos ready to be put into action? What if we all are mere pieces of pawns carefully played upon by a cosmic chessmaster? 'That Thing About You' is an uncommon story of a common man rejected in love. This is a story of a man walking on the path of self-discovery. Subodh, a regular IT employee, is perceived as an immature man by everyone, but he isn't bothered until his love interest rejects him citing the same. Although dejected and crestfallen, he soon befriends an unusual, mysterious woman who knows everything about him and seems to have all the answers. Soon, his life goes through a lot of unexpected turns—from doubting his sanity and visiting a psychologist to a failed arranged marriage attempt made by his parents. Everything in his life seems to be in fast-forward

mode. One thing that does not change, however, is this unusual “ friend ” of his who refuses to reveal her identity and chooses to appear at her whim. Who is this mysterious woman? Why is she prying into his life? Where will this strange friendship lead him? Is some impending danger awaiting Subodh or is it something else altogether?

Inclusive Governance in South Asia Sep 01 2022 This edited volume explores the state of inclusive governance in South Asia. It particularly examines the nature and scope of inclusiveness noticed in the parliament and civil service in Bangladesh, India, and Nepal, and the judiciary in Bangladesh. Where previous literature has stressed the need for the inclusion of external stakeholders, this volume highlights the importance of the involvement of internal stakeholders. This includes ‘ insiders ’ such as opposition members and government backbenchers in parliament and specialists in the civil service. The main emphasis is on identifying the extent to which insiders in different institutions have the scope to participate in the governing process. Furthermore, this volume also seeks to assess the implications of inclusiveness/exclusiveness for democratic governance. By exploring the link between inclusiveness and accountability, its contributors are able to draw out the strengths and weaknesses of the existing mechanisms of accountability, particularly social accountability. This innovative collection will appeal to students and scholars of gender and development studies, public policy and administration, international relations, law and political science.

Renegade Feb 11 2021 Still going after thirty years, The Fall are one of the most distinctive British bands, their music - odd, spare, cranky and repetitious - an acknowledged influence on The Smiths, The Happy Mondays, Nirvana and Franz Ferdinand. And Mark E. Smith IS The Fall - 47 members have come and gone over the years yet he remains its charismatic leader, a professional outsider and all-round enemy of compromise, a true enigma. There have been a number of biographies of the legendary Smith, but this is the first time he has opened up in a full autobiography. For the first time we get to hear his full, candid take on the ups and downs of a band as notorious for its in-house fighting as for its great music; and on a life that has endured prison in America, drugs, bankruptcy, divorce, and the often bleak results of a legendary thirst.

The Killing Season Uncut Sep 28 2019 Australians came to the ABC's *The Killing Season* in their droves, their fascination with the Rudd-Gillard struggle as unfinished as the saga itself. Rudd and Gillard dominate the drama as they strain to claim the narrative of Labor's years in power. The journey to screen for each of their interviews is telling in itself. Kevin Rudd gives his painful account of the period and recalled in vivid detail the events of losing the prime ministership. Julia Gillard is frank and unsparing of her colleagues. More than a hundred people were interviewed for *The Killing Season*--ministers, backbenchers, staffers, party officials, pollsters and public servants--recording their vivid accounts of the public and private events that made the Rudd and Gillard governments and then brought them undone. It is a damning portrait of a party at war with itself: the personal rivalries and the bitter defeats that have come to define the Rudd-Gillard era. "The making of *The Killing Season* matched the drama on screen and that's a story we wanted to tell. And now we have a place for the episodes of rich material we could have put into a 5-part series." -- Sarah Ferguson

Falling Down Nov 22 2021 Despite winning the December 2019 General Election, the Conservative parliamentary party is a moribund organisation. It no longer speaks for, or to, the British people. Its leadership has sacrificed the long-standing commitment to the Union to 'Get Brexit Done'. And beyond this, it is an intellectual vacuum, propped up by half-baked doctrine and magical thinking. *Falling Down* offers an explanation for how the Tory party came to position itself on the edge of the precipice and offers a series of answers to a question seldom addressed: as the party is poised to press the self-destruct button, what kind of role and future can it have? This tipping point has been a long time coming and Burton-Cartledge offers critical analysis to this narrative. Since the era of Thatcherism, the Tories have struggled to find a popular vision for the United Kingdom. At the same time, their members have become increasingly old. Their values have not been adopted by the younger voters. The coalition between the countryside and the City interests is under pressure, and the latter is split by Brexit. The Tories are locked into a declinist spiral, and with their voters not replacing themselves the party is more dependent on a split opposition – putting into question their continued viability as the favoured vehicle of British capital.

The Fixer May 05 2020 The famed political advisor to Uber, FanDuel, Lemonade, Tesla and other startups reveals what really happens at the intersection of politics, tech and business. Most new startups today are in highly regulated industries with strong incumbents - transportation, hotels, drones, energy, gaming, education, health care, cannabis, finance, liquor, insurance. The more startups try to snatch a piece of the establishment's pie, the more they risk running into a political wall. That's where Bradley Tusk comes in. Described as "Silicon Valley's Political Savior" (*Fast Company*) "Uber's Political Genius" (*Vanity Fair*) and "Silicon Valley's Favorite Fixer" (*TechCrunch*) Tusk deploys the skills and knowledge he developed working with Chuck Schumer, Michael Bloomberg, Rod Blagojevich, and other political and business legends to help startups fight back. This book goes behind the scenes on how he helped stop the taxi industry from killing Uber in its infancy, how he held insurance companies at bay while startup Lemonade launched in each state, and how he helped online sports betting sites FanDuel and Draft Kings escape the regulatory death grip casinos tried to put on them. As Tusk writes, "Every new company is essentially a tech startup. And when you disrupt someone in any industry, they don't say thank you. They punch you in the nose. These are the lessons startups need to learn to punch back and survive the clutches of politics." Combining a firsthand glimpse behind the curtain with tangible advice for how any new venture can play the political game, *THE FIXER* is a must-read for aspiring entrepreneurs.

The Political Animal Jul 27 2019 Jeremy Paxman knows every manoeuvre a politician will make to avoid answering a difficult question, but here he seeks an answer to just one: What makes politicians tick? Embarking on a journey in which he encounters movers and shakers past and present, he discovers: that Prime Ministers have often lost a parent in childhood why Trollope is the politician's novelist of choice that Lloyd George once hunted Jack the Ripper how an

Admiral's speech in parliament helped win WWII Where do politicians come from? How do they get elected? What do they do all day? And why do they seek power? All these questions and many more are addressed in Paxman's thrilling dissection of that strange and elusive breed – the political animal.

Unspeaking Oct 10 2020 When Bercow retired as Speaker of the House of Commons on 31st October, he had become one of the most recognisable and iconoclastic figures in British politics, and had created a vacancy of huge importance. As Speaker since 2009 he had a ringside seat during one of the most febrile periods in modern British history, presiding over the Commons while it had to contend with key issues such as austerity in the light of the financial crisis; the coalition government between the Conservatives and Liberal Democrats; and of course the most intractable problem of all, how to deliver on the 2016 referendum decision that Britain should leave the EU.

The Politics of Parliamentary Debate Mar 03 2020 This book explains how parties and their members of parliament structure parliamentary debate, providing novel insights into intra-party politics and representation.

The Purple Revolution Sep 20 2021 How did Farage persuade Reckless and Carswell to ditch the Conservatives? Would UKIP ever do a deal with another party? How have three near-death experiences shaped Farage's politics? How does Nigel feel about controversial kippers and their high-profile gaffes? Twenty-one years after its formation as a single-policy protest party, and on the eve of what promises to be one of the closest, most exciting general elections in recent memory, the truly remarkable rise of UKIP and its charismatic leader, Nigel Farage, have caused nothing less than a tectonic shift in British politics. And the aftershocks are being felt far beyond the corridors of power in Whitehall... This book, written by the man who orchestrated that extraordinary rise, is not an autobiography, but rather the untold story of the journey UKIP has travelled under Farage's leadership, from the icy fringes of British politics all the way to Westminster, where it is poised to claim the popular vote. In it, he reveals for the first time exactly how, over the last few years, Farage and his supporters have ushered in a very English revolution: secretly courting MPs right under the nose of the political establishment, in the tearooms and wine bars of the House of Lords. With characteristic wit and candour, Farage takes us beyond the caricature of the beerdrinking, chain-smoking adventurer in Jermyn Street double-cuffs as he describes the values that underpin his own journey: from successful City trader to (very) outspoken critic of the European Union and champion of Britain's right to govern itself.

The Churchill Factor Jun 25 2019 As the country navigates a national crisis once again, read how Britain's Prime Minister was inspired by Winston Churchill. One man can make all the difference. Now leader of the UK himself, Boris Johnson explores what makes up the 'Churchill Factor' - the singular brilliance of one of the most important leaders of the twentieth century. Taking on the myths and misconceptions along with the outsized reality, he portrays - with characteristic wit and passion - a man of multiple contradictions, contagious bravery, breath-taking eloquence, matchless strategizing and deep humanity. Fearless on the battlefield, Churchill had to be ordered by the King to stay out of action on D-Day; he embraced large-scale strategic bombing, yet hated the destruction of war and scorned politicians who had not experienced its horrors. He was a celebrated journalist, a great orator and won the Nobel Prize for Literature. He was famous for his ability to combine wining and dining with many late nights of crucial wartime decision-making. His open-mindedness made him a pioneer in healthcare, education and social welfare, though he remained incorrigibly politically incorrect. As Prime Minister Boris Johnson says, 'Churchill is the resounding human rebuttal to all who think history is the story of vast and impersonal economic forces'. Published in association with Churchill Heritage, The Churchill Factor is essential reading for anyone who wants to know what makes a great leader in a time of crisis.

Legislation at Westminster May 29 2022 The Westminster parliament is a highly visible political institution, and one of its core functions is approving new laws. Yet Britain's legislative process is often seen as executive-dominated, and parliament as relatively weak. As this book shows, such impressions can be misleading. Drawing on the largest study of its kind for more

than forty years, Meg Russell and Daniel Gover cast new light on the political dynamics that shape the legislative process. They provide a fascinating account of the passage of twelve government bills - collectively attracting more than 4000 proposed amendments - through both the House of Commons and House of Lords. These include highly contested changes such as Labour's identity cards scheme and the coalition's welfare reforms, alongside other relatively uncontroversial measures. As well as studying the parliamentary record and amendments, the study draws from more than 100 interviews with legislative insiders. Following introductory chapters about the Westminster legislative process, the book focuses on the contribution of distinct parliamentary 'actors', including the government, opposition, backbenchers, select committees, and pressure groups. It considers their behaviour in the legislative process, what they seek to achieve, and crucially how they influence policy decisions. The final chapter reflects on Westminster's influence overall, showing this to be far greater than commonly assumed. Parliamentary influence is asserted in various different ways - ranging from visible amendments to more subtle means of changing government's behaviour. The book's findings make an important contribution to understanding both British politics and the dynamics of legislative bodies more broadly. Its readability and relevance will appeal to both specialists and general readers with interests in politics and law, in the UK and beyond.

Fatal Influence Aug 27 2019 "Fatal Influence" challenges and revises many widely held assumptions about a pivotal moment in both British and Irish history and persuasively demonstrates that Ireland's impact on British politics lasted far longer and was far greater than has been realized. Kevin Matthews places the settlement of the Irish Question in the 1920s within the broader context of a revolution then taking place in British politics and shows how each affected the other. In a detailed investigation, he explores the Irish partition and the often conflicting motives that led to this momentous decision. Far from solving the Irish Question, dividing the country into two parts merely created what one politician at the time called its "elements of dynamite". These explosive elements were thrown into an already unstable political situation in Britain, with three political parties - Liberals, Conservatives, and Labour - all vying for a place in that nation's traditional two-party system. The book brings together some of the most colourful characters of 20th-century British and Irish history, from Winston Churchill and Michael Collins to David Lloyd George and Eamon de Valera. Looming behind is Sir James Craig, the rock-like embodiment of Ulster Unionism. But this story of "high politics" also involves men whose careers are not normally associated with the Irish conflict, figures such as Stanley Baldwin, Ramsay MacDonald, Neville Chamberlain and, even, Oswald Mosley and Anthony Eden.

Held in Contempt Jun 05 2020 If MPs do not take responsibility for reforming the House of Commons - the cornerstone of our democracy - it will be held in contempt by the British public. In this timely book, Hannah White offers a perceptive critique of the internal shortcomings of the House of Commons. She argues that parliamentary rules have become too complex for many MPs, let alone the public, to understand. Meanwhile, MPs undermine their own credibility by acting as if the rules they set for others should not apply to them. This reinforces the public's sense that MPs are detached from their own lives, and their awareness that MPs are still not representative of the population they govern from the crumbling Palace of Westminster. Hannah White argues these internal flaws are undermining the public reputation of the House of Commons. And they have been compounded by government attempts to side-line parliament, particularly during Brexit and the coronavirus pandemic. At a time of populist challenge to representative democracy, this book is a much-needed rallying cry - to reform the House of Commons as an institution or see it fade into irrelevance.

The Triumph of the Dark Dec 12 2020 In this magisterial narrative, Zara Steiner traces the twisted road to war that began with Hitler's assumption of power in Germany. Covering a wide geographical canvas, from America to the Far East, Steiner provides an indispensable reassessment of the most disputed events of these tumultuous years. Steiner underlines the far-reaching consequences of the Great Depression, which shifted the initiative in international affairs from those who upheld the status quo to those who were intent on destroying it. In Europe, the 1930s were Hitler's years. He moved the major chess pieces on the board, forcing the others to respond. From the start, Steiner argues, he intended war, and he repeatedly gambled on Germany's future to acquire the necessary resources to fulfil his continental ambitions. Only war could have stopped him-an unwelcome message for most of Europe. Misperception, miscomprehension, and misjudgment on the part of the other Great Powers leaders opened the way for Hitler's repeated diplomatic successes. It is ideology that distinguished the Hitler era from previous struggles for the mastery of Europe. Ideological presumptions created false images and raised barriers to understanding that even good intelligence could not penetrate. Only when the leaders of Britain and France realized the scale of Hitler's ambition, and the challenge Germany posed to their Great Power status, did they finally declare war.

The House of Commons Jun 17 2021 The House of Commons is one of Britain's mysterious institutions: constantly in the news yet always opaque. In this ground-breaking anthropological study of the world ' s most famous parliament, Emma Crewe reveals the hidden mechanisms of parliamentary democracy. Examining the work of Members of Parliament – including neglected areas such as constituencies and committees – this book provides unique insights into the actual lives and working relationships of parliamentarians. 'Why do the public loathe politicians but often love their own MP?' the author asks. The antagonistic façade of politics irritates the public who tend to be unaware that, backstage, democracy relies on MPs consulting, compromising and cooperating across political parties far more than is publicly admitted. As the book shows, this is only one of myriad contradictions in the labyrinths of power. Based on unprecedented access and two years of interviews and research in the Palace of Westminster and MPs ' constituencies, *The House of Commons: An Anthropology of MPs at Work* challenges the existing scholarship on political institutions and party politics. Moving beyond the narrow confines of rational choice theory and new institutionalism, Emma Crewe presents a radical alternative to the study of British politics by demonstrating that all of its processes hinge on culture, ritual and social relations. A must-read for anyone interested in political anthropology, politics, or the Westminster model.
