**Dante** Jul 07 2020 An authoritative and comprehensive intellectual biography of the author of the Divine Comedy For all that has been written about the author of the Divine Comedy, Dante Alighieri (1265–1321) remains the best guide to his own life and work. Dante's writings are therefore never far away in this authoritative and comprehensive intellectual biography, which offers a fresh account of the medieval Florentine poet's life and thought before and after his exile in 1302. Beginning with the often violent circumstances of Dante's life, the book examines his successive works as testimony to the course of his passionate humanity: his lyric poetry through to the Vita nova as the great work of his first period; the Convivio, De vulgari eloquentia and the poems of his early years in exile; and the Monarchia and the Commedia as the product of his maturity. Describing as it does a journey of the mind, the book confirms the nature of Dante's undertaking as an exploration of what he himself speaks of as "maturity in the flame of love." The result is an original synthesis of Dante's life and work.

**Roar of the African Lion** Jul 19 2021 The African Lion, Dr Chika Onyeani, is back and roaring. The author of the phenomenally successful Capitalist Nigger offers a new collection of his speeches, articles and other writings over the last fifteen years. In Roar of the African Lion, Dr Onyeani's unblinking gaze and plain speaking are directed at many of the burning issues of the day. He outlines his revolutionary Spider Web Doctrine—aimed at financial self-reliance and the upliftment of black communities—and attacks the parasitic leaders whose greed has robbed the people of Africa of opportunities for advancement and development since their liberation. He is equally scornful of the failures of the African elite to influence the direction of their countries, and has trenchant comments to make about racism, xenophobia and hypocrisy in Africa, America and elsewhere. Dr Onyeani also tackles the persistence of slavery on the continent, the West's ambivalent attitude to aid and debt relief, rampant corruption and 'whiteness' of Barack Obama. Looking to the future, he cautions Africa to be wary of China's embrace and to pursue its own solutions to African problems.

**Bill Bryson's African Diary** Oct 10 2020 Bill Bryson goes to Kenya at the invitation of CARE International, the charity dedicated to working with local communities to eradicate poverty around the world. Kenya, generally regarded as the cradle of humankind, is a land of stunning landscapes, famous game reserves, and a vibrant culture, but it also has many serious problems, including refugees, AIDS, drought and grinding poverty. It also provides plenty to worry a nervous traveller like Bill Bryson: hair-raising rides in light aircraft, tropical diseases, snakes, insects and large predators. Bryson casts his inimitable eye on a continent new to him, and the resultant diary, though short in length, contains all his trademark laugh-out-loud wit, wry observation and curious insight. All the author's royalties from this book, as well as all profits, will go to CARE International.

[Sustainable Management Development in Africa](#) Feb 11 2021 *Sustainable Management Development in Africa* examines how African management and business scholarship can serve African and multinational management and organizations operating in Africa. In a broader sense, this book, within an African context, explores how human capital and intellectual capabilities can be organized at the higher education level; describes the cultural, social, and political influencers impacting management and organization; helps conceptualize African management theories to address organizational effectiveness; addresses the current management and organizational practices in Africa in identifying challenges; and provides guidance for more effective management and organizational operation. Aimed at researchers, academics, and advanced students alike, this book lays the groundwork for the application of uniquely African theoretical and practical perspectives for sustainable management and organizational operation, as explained from a contemporary African point of view. In addition and most important, this book contains a uniquely African content that allows for developing new theories and examining new ways of doing business, thus reaffirming the rise of African scholarship in the fields of management, organization, and business.

**Find Me Unafraid** Apr 27 2022 *Find Me Unafraid* tells the uncommon love story between two uncommon people whose collaboration sparked a successful movement to transform the lives of vulnerable girls and the urban poor. With a Foreword by Nicholas Kristof. This is the story of two young people from completely different worlds: Kennedy Odede from Kibera, the largest slum in Africa, and Jessica Posner from Denver, Colorado. Kennedy foraged for food, lived on the street, and taught himself to read with old newspapers. When an American volunteer gave him the work of Mandela, Garvey, and King, teenaged Kennedy decided he was going to change his life and his community. He bought a soccer ball and started a youth empowerment group he called Shining Hope for Communities (SHOFCO). Then in 2007, Wesleyan undergraduate Jessica Posner spent a semester abroad in Kenya working with SHOFCO. Breaking all convention, she decided to live in Kibera with Kennedy, and they fell in love. Their connection persisted, and Jessica helped Kennedy to escape political violence and fulfill his lifelong dream of an education, at Wesleyan University. The alchemy of their remarkable union has drawn the support of community members and celebrities alike—The Clintons, Mia Farrow, and Nicholas Kristof are among their fans—and their work has changed the lives of many of Kibera's most vulnerable population: its girls. Jess and Kennedy founded Kibera's first tuition-free school for girls, a large, bright blue building, which stands as a bastion of hope in what once felt like a hopeless place. But Jessica and Kennedy are just getting started—they have expanded their model to connect essential services like health care, clean water, and economic empowerment programs. They've opened an identical project in Mathare, Kenya's second largest slum, and intend to expand their remarkably successful program for change. Ultimately this is a love story about a fight against poverty and hopelessness, the transformation made possible by a true love, and the power of young people to have a deep impact on the world.

**Capitalism and Freedom in African Political Philosophy** Apr 03 2020 This book investigates 'capitalism and freedom'—the guiding forces of many political systems—in African philosophy. It builds on classical and neoliberal capitalism rooted in private property and freedom, and argues for the presence of these elements in the traditional and modern African political systems. The author argues that while these elements are partly imported from Western capitalists, they are equally traceable in African traditional political systems. Kayange argues that African politics is marred by a conflict between embracing capitalism and freedom (individualism), on the one hand, and socialism founded on African communitarianism and communist ideas, on the other. This conflict has affected policy development and implementation, and has significantly contributed towards the socio-economic and ethical crises that are recurrent in most of the African countries.

[They Left Great Marks on Me](#) Jul 31 2022 Since the end of the Cold War, the idea of human rights has been made into a justification for intervention by the world's leading economic and military powers—above all, the United States—in countries that are vulnerable to their attacks. The criteria for such intervention have become more arbitrary and self-serving, and their form more destructive, from Yugoslavia to Afghanistan to Iraq. Until the U.S. invasion of Iraq, the large parts of the left was often complicit in this ideology of intervention—discovering new "Hitlers" as the need arose, and denouncing antiwar arguments as appeasement on the model of Munich in 1938. Jean Bricmont's *Humanitarian Imperialism* is both a historical account of this development and a powerful political and moral critique. It seeks to restore the critique of imperialism to its rightful place in the defense of human rights. It describes the leading role of the United States in initiating military and other interventions, but also on the obvious support given to it by European powers and NATO. It outlines an alternative approach to the question of human rights, based on the genuine recognition of the equal rights of people in poor and wealthy countries. Timely, topical, and rigorously argued, Jean Bricmont's book establishes a firm basis for resistance to global war with no end in sight.

**The Life of Olaudah Equiano, Gustavus Vassa the African** Oct 02 2022 "The Life of Olaudah Equiano" is one of the earliest-known examples of published writing by an African writer and the first influential slave narrative of what became a large literary genre. Equiano's autobiography helped in the creation of the Slave Trade Act 1807 which ended the African slave trade for Britain and its colonies. Olaudah Equiano (c. 1745 - 1797), known in his lifetime as Gustavus Vassa was a freed slave of Igbo extraction from the eastern part of present-day Nigeria, who supported the British movement to end the slave trade.

[God and Blackness](#) Jan 13 2021 Blackness, as a concept, is extremely fluid: it can refer to cultural and ethnic identity, socio-political status, an aesthetic and embodied way of being, a social and political consciousness, or a diasporic kinship. It is used as a description of skin color ranging from the palest cream to the richest chocolate; as a marker of enslavement, marginalization, criminality, filth, or evil; or as a symbol of pride, beauty, elegance, strength, and depth. Despite the fact that it is elusive and difficult to

define, blackness serves as one of the most potent and unifying domains of identity. God and Blackness offers an ethnographic study of blackness as it is understood within a specific community—that of the First Afrikan Church, a middle-class Afrocentric congregation in Atlanta, Georgia. Drawing on nearly two years of participant observation and in-depth interviews, Andrea C. Abrams examines how this community has employed Afrocentrism and Black theology as a means of negotiating the unreconciled natures of thoughts and ideals that are part of being both black and American. Specifically, Abrams examines the ways in which First Afrikan's construction of community is influenced by shared understandings of blackness, and probes the means through which individuals negotiate the tensions created by competing constructions of their black identity. Although Afrocentrism operates as the focal point of this discussion, the book examines questions of political identity, religious expression and gender dynamics through the lens of a unique black church.

**Bully-proof: A practical guide for parents, teachers and South African schools** Jan 25 2022 Every day, thousands of South African children go to school filled with terror because they know they're going to be bullied. Children who are targeted by bullies are at enormous risk, yet many parents don't know why it is happening to their child, or what to do about it. Bully-proof looks at every aspect of bullying, from name-calling, taunting and rumour-mongering to physical assault, and examines why and how bullies behave the way they do, and what can be done to help them and their victims. The more we understand bullying behaviour, the better we can address the underlying causes and put effective controls in place. Studies have shown that the 'whole school' approach, involving pupils, teachers and parents, is by far the most effective method of reducing incidents of bullying, as well as limiting the potential for future incidents. Implementing an effective anti-bullying campaign is not just about changing the behaviour of a few maladjusted children; it is about changing the philosophy of the entire school. Using a step-by-step approach, this book provides educators, parents, counsellors and children with the tools they need to develop a successful anti-bullying programme.

**David Livingstone: The Wayward Vagabond in Africa** Dec 12 2020 David Livingstone: The Wayward Vagabond in Africa is an expression of doubt about the *raison d'être* concerning the 19th Century explorers and missionaries in Africa. Led by David Livingstone, the Scottish explorer and missionary, they are said to have come to civilise "backward" Africans, which the author creatively re-imagines, arguing that it is far from the truth. Instead, their actions gave impetus to colonialism proper. In this book the omniscient narrator, Everywhere, is God's special envoy mandated to witness history with far-reaching consequences for humanity. His investigation is to help nail David Livingstone on Judgment Day, much the same way St Peter chronicles events in the Book of Life. Read about how, Everywhere, the spirit rides on wind, walks on water, enters into his characters' stream of consciousness and even discerns how they interpret the world around them. The novel retraces Livingstone's early life, from his deprived childhood in Blantyre, Scotland; his ideological evolution and training in London and his dramatic sojourn in Monomotapa kingdom, which he half-believes is his destiny. The satirical tone in the novel aptly captures that delusional aspect of Livingstone's "God-ordained" mission to the world.

**Border Jumping and Migration Control in Southern Africa** Jul 27 2019 With the end of apartheid rule in South Africa and the ongoing economic crisis in Zimbabwe, the border between these Southern African countries has become one of the busiest inland ports of entry in the world. As border crossers wait for clearance, crime, violence, and illegal entries have become rampant. Francis Musoni observes that border jumping has become a way of life for many of those who live on both sides of the Limpopo River and he explores the reasons for this, including searches for better paying jobs and access to food and clothing at affordable prices. Musoni sets these actions into a framework of illegality. He considers how countries have failed to secure their borders, why passports are denied to travelers, and how border jumping has become a phenomenon with a long history, especially in Africa. Musoni emphasizes cross-border travelers' active participation in the making of this history and how clandestine mobility has presented opportunity and creative possibilities for those who are willing to take the risk.

**A Man of Africa** Nov 10 2020 Principled reformer or duplicitous exploiter? The contested legacy of Harry

Oppenheimer reflects the tensions involved in dealing with South Africa's complex past. The head of a sprawling global business empire, Oppenheimer played an influential role in twentieth-century South Africa – a role celebrated by some and condemned by others. This book investigates his political thinking over half a century, and considers the nature of his opposition to apartheid as well as his contribution to the democratic age ushered in by Tambo and Mandela. A Man of Africa presents Oppenheimer's views on liberalism, apartheid, socialism, sanctions, trade unions, education, geopolitics and the legacy of Cecil John Rhodes. Each topic is explored via extracts from his speeches, and is followed by an assessment by prominent South Africans such as Kgalema Motlanthe, Albie Sachs, Clem Sunter, Denis Beckett, Bobby Godsell, Jonathan Jansen and Xolela Mangcu. Fascinating and insightful, A Man of Africa shines new light on one of South Africa's most powerful and multifaceted figures, and reflects on the role of principled business in a political economy.

**African-Centred Management Education** Jan 31 2020 In African-Centred Management Education, Professor Abdulai looks critically at the failings of management education in Africa and how that has impacted growth and development efforts, especially at this critical stage in the continent's positive growth and development trajectory. He concludes that Africa's current positive economic growth cannot be sustained without a significant contribution from its human capital. He adds that, the outstanding economic record of Asian economies in recent decades dramatically illustrates how important human capital is to growth. These countries lacking natural resources and importing practically all their energy requirements have grown rapidly by relying on a well-trained, educated and conscientious workforce. Professor Abdulai believes that Africa, too, can sustain its current growth and development by effectively combining its abundant natural resources with its human capital to attain its economic development, but this will require an African cadre of well-trained managers at the helm of both private and public sector institutions. For this to become a reality, management education in Africa will have to play a significant role, but the author argues that it cannot be effective by continually mimicking the West in the programmes it delivers. It must come up with innovative and relevant pedagogy that will address the special challenges that the continent faces and deliver an African-centred management education. As well as pointing to the failures of management education in Africa, Abdulai offers suggestions as to how to make management education really contribute to the education of Africans, in order to sustain current and future development.

*Learning Zulu* Jun 25 2019 "Why are you learning Zulu?" When Mark Sanders began studying the language, he was often asked this question. In Learning Zulu, Sanders places his own endeavors within a wider context to uncover how, in the past 150 years of South African history, Zulu became a battleground for issues of property, possession, and deprivation. Sanders combines elements of analysis and memoir to explore a complex cultural history. Perceiving that colonial learners of Zulu saw themselves as repairing harm done to Africans by Europeans, Sanders reveals deeper motives at work in the development of Zulu-language learning—from the emergence of the pidgin Fanagalo among missionaries and traders in the nineteenth century to widespread efforts, in the twentieth and twenty-first centuries, to teach a correct form of Zulu. Sanders looks at the white appropriation of Zulu language, music, and dance in South African culture, and at the association of Zulu with a martial masculinity. In exploring how Zulu has come to represent what is most properly and powerfully African, Sanders examines differences in English- and Zulu-language press coverage of an important trial, as well as the role of linguistic purism in xenophobic violence in South Africa. Through one person's efforts to learn the Zulu language, Learning Zulu explores

how a language's history and politics influence all individuals in a multilingual society.

*Theory of African Music* Mar 27 2022 Taken together, these comprehensive volumes offer an authoritative account of the music of Africa. One of the most prominent experts on the subject, Gerhard Kubik draws on his extensive travels and three decades of study in many parts of the continent to compare and contrast a wealth of musical traditions from a range of cultures. In the first volume, Kubik describes and examines

xylophone playing in southern Uganda and harp music from the Central African Republic; compares multi-part singing from across the continent; and explores movement and sound in eastern Angola. And in the second volume, he turns to the cognitive study of African rhythm, Yoruba chantefables, the musical Kachamba family of Malaŵi, and African conceptions of space and time. Each volume features an extensive number of photographs and is accompanied by a compact disc of Kubik's own recordings. Erudite and exhaustive, *Theory of African Music* will be an invaluable reference for years to come.

**Representing African Music** Aug 08 2020 The aim of this book is to stimulate debate by offering a critique of discourse about African music. Who writes about African music, how, and why? What assumptions and prejudices influence the presentation of ethnographic data? Even the term "African music" suggests there is an agreed-upon meaning, but African music signifies differently to different people. This book also poses the question then, "What is African music?" Agawu offers a new and provocative look at the history of African music scholarship that will resonate with students of ethnomusicology and post-colonial studies. He offers an alternative "Afro-centric" means of understanding African music, and in doing so, illuminates a different mode of creativity beyond the usual provenance of Western criticism. This book will undoubtedly inspire heated debate--and new thinking--among musicologists, cultural theorists, and post-colonial thinkers. Also includes 15 musical examples.
