Crime and Punishment: Large Print Jun 06 2020 Crime and Punishment: Large Print by Fyodor Dostoyevsky From the Russian master of psychological characterizations, this novel portrays the carefully planned murder of a miserly, aged pawnbroker by a destitute Saint Petersburg student named Raskolnikov, followed by the emotional, mental, and physical effects of that action. Translated by Constance Garnett.

Perkins Activity and Resource Guide - Chapter 4: Functional Academics Nov 04 2022 This chapter is designed to address the needs of individuals with visual and multiple disabilities who may not be able to follow all parts of a traditional academic curriculum. As educators, our primary goal should be to provide students with skills that will be of use throughout their lives. Skill acquisition often takes longer for students with multiple disabilities, and they are not always able to generalize them into other settings. For this reason it is important to identify skills that will help prepare students to lead the most independent lives possible and to provide many opportunities to practice them.

The Woman in Black Dec 01 2019 The classic ghost story from the author of *The Mist in the Mirror*: a chilling tale about a menacing spectre haunting a small English town. Arthur Kipps is an up-and-coming London solicitor who is sent to Crythin Gifford—a faraway town in the windswept salt marshes beyond Nine Lives Causeway—to attend the funeral and settle the affairs of a client, Mrs. Alice Drablow of Eel Marsh House. Mrs. Drablow’s house stands at the end of the causeway, wreathed in fog and mystery, but Kipps is unaware of the tragic secrets that lie hidden behind its sheltered windows. The routine business trip he anticipated quickly takes a horrifying turn when he finds himself haunted by a series of mysterious sounds and images—a rocking chair in a deserted nursery, the eerie sound of a pony and trap, a child’s scream in the fog, and, most terrifying of all, a ghostly woman dressed all in black. Psychologically terrifying and deliciously eerie, *The Woman in Black* is a remarkable thriller of the first rate. The basis for the major motion picture starring Daniel Radcliffe.

A Wrinkle in Time Nov 11 2020 *A Wrinkle in Time* is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

The Boy on the Wooden Box Feb 24 2022 Leon Leyson (born Leib Lezjon) was only ten years old when the Nazis invaded Poland and his family was forced to relocate to the Krakow ghetto. With incredible luck, perseverance and grit, Leyson was able to survive the sadism of the Nazis, including that of the demonic Amon Goeth, commandant of Plaszow, the concentration camp outside Krakow. Ultimately, it was the generosity and cunning of one man, a man named Oskar Schindler, who saved Leon Leyson's life, and the lives of his mother, his father, and two of his four siblings, by adding their names to his list of workers in his factory - a list that became world renowned: Schindler's List. This, the only memoir published by a former Schindler's List child, perfectly captures the innocence of a small boy who goes through the unthinkable. Most notable is the lack of rancour, the lack of venom, and the abundance of dignity in Mr Leyson's telling. *The Boy on the Wooden Box* is a legacy of hope, a memoir unlike anything you've ever read.

The Graveyard Book Aug 01 2022 It takes a graveyard to raise a child. Nobody Owens, known as Bod, is a normal boy. He would be completely normal if he didn't live in a graveyard, being raised by ghosts, with a guardian who belongs to neither the world of the living nor the dead. There are adventures in the graveyard for a boy—an ancient Indigo Man, a gateway to the abandoned city of ghouls, the strange and terrible Sleer. But if Bod leaves the graveyard, he will be in danger from the man Jack—who has already killed Bod's family.

Systematic Reviews in the Social Sciences Nov 23 2021 Such diverse thinkers as Lao-Tze, Confucius, and U.S. Defense Secretary Donald Rumsfeld have all pointed out that we need to be able to tell the difference between real and assumed knowledge. The systematic review is a scientific tool that can help with this difficult task. It can help, for example, with appraising, summarising, and communicating the results and implications of otherwise unmanageable quantities of data. This book, written by two highly-respected social scientists, provides an overview of systematic literature review methods: Outlining the rationale and methods of systematic reviews; Giving worked examples from social science and other fields; Applying the practice to all social science disciplines; It requires no previous knowledge, but takes the reader through the process stage by stage; Drawing on examples from such diverse fields as psychology, criminology, education, transport, social welfare, public health, and housing and urban policy, among others. Including detailed sections on assessing the quality of both quantitative, and qualitative research; searching for evidence in the social sciences; meta-analytic and other methods of evidence synthesis; publication bias; heterogeneity; and approaches to dissemination.

Beneficial Co-Utilization of Agricultural, Municipal and Industrial by-Products Feb 01 2020 The potential for blending residuals to create valuable products that are publicly accepted is an example of recycling at its best. Previously, much of the research done on reuse of residuals has centered on potential negative effects. Generally, blending of materials has been done in a relatively haphazard fashion. There is a growing understanding that residuals can be deliberately mixed for specific end uses. This is the initial phase of transition from residuals disposal to product development. The XXII Annual Beltsville Symposium focused on the range of factors that need to be taken into account for any co-utilization programme to be successful. The proceedings include research reports as well as reports from the private sector. Potential uses for co-utilization products as well as areas requiring more research are outlined.

Nineteen Eighty-Four Jul 28 2019 "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass

surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.
