*Mythspring Jun 29 2020 Aurora Award - Best Work in English (Other), Nominee 2007 Aurora Award - Best Short-Form Work in English finalist for: All the Cool Monsters at Once, James Alan Gardner This Ink Feels Like Sorrow, Karin Lowachee What happens When myth Meets storyteller? Something new is born. Mythspring Song and story. Myth and tradition. They are a shared legacy that both satisfies and inspires. Join these talented authors as they celebrate the rich, diverse, and occasionally truly odd culture of our country. Mythspring is an anthology of original short speculative fiction, including fantasy, science fiction, and horror, where each story is derived from a Canadian song, folktale, myth, or other cultural source. Excerpts of the source text or image appears in the book with each story, along with a brief description of how the author was inspired by it. Includes stories from notable speculative fiction authors such as Charles de Lint, James Alan Gardener, Alison Baird, Tanya*

Huff and Karin Lowachee. The stories will be suitable for an older young adult audience, and the book will be of great interest to educators. It will be included as a "special event" volume within the Realms of Wonder series of original fantasy anthologies. Be inspired. Celebrate our wealth of ideas and talent. Taste the delights of Mythspring.

American Multinationals and Japan Oct 26 2022 "This pioneering study of United States direct investment in Japan will interest academic specialists, business managers, and government policymakers in America, Japan, and elsewhere. Drawing on rich historical materials from both sides of the Pacific, including corporate records and government documents never before made public, Mason examines the development of both Japanese policy towards foreign investment and the strategic responses of American corporations. This history is related in part through original case studies of Coca-Cola, Dow Chemical, Ford, General Motors, International Business Machines, Motorola, Otis Elevator, Texas Instruments, Western Electric, and Victor Talking Machine. The book seeks to explain why a little foreign direct investment has entered modern Japan. In contrast to the widely held view that emphasizes an alleged lack of effort on the part of foreign corporations, this study finds that Japanese restrictions merit greater attention. Many analysts of the modern Japanese political economy identify the Japanese government as the key actor in initiating such restrictions. Mason finds that the influence of Japanese business has often proved more potent than these analysts suggest. This book offers fresh insights into both the operation of the modern Japanese political economy and of its relations with the world economy."

VLSI Signal Processing Technology Nov 15 2021 This book is the first in a set of forthcoming books focussed on state-of-the-art development in the VLSI Signal Processing area. It is a response to the tremendous research activities taking place in that field. These activities have been driven by two factors: the dramatic increase in demand for high speed signal processing, especially in consumer electronics, and the evolving microelectronic technologies. The available technology has always been one of the main factors in determining

al gorithms, architectures, and design strategies to be followed. With every new technology, signal processing systems go through many changes in concepts, design methods, and implementation. The goal of this book is to introduce the reader to the main features of VLSI Signal Processing and the ongoing developments in this area. The focus of this book is on:

- Current developments in Digital Signal Processing (DSP) processors and architectures - several examples and case studies of existing DSP chips are discussed in Chapter 1.
- Features and requirements of image and video signal processing architectures - both applications specific integrated circuits (ASICs) and programmable image processors are studied in Chapter 2.
- New market areas for signal processing - especially in consumer electronics such as multimedia, teleconferencing, and movie on demand.
- Impact of arithmetic circuitry on the performance of DSP processors - several topics are discussed in Chapter 3 such as: number representation, arithmetic algorithms and circuits, and implementation.

Scorched Eggs Sep 01 2020 In Laura Childs's New York Times bestselling mystery series, Suzanne, Petra, and Toni—co-owners of the Cackleberry Club Café—are equally good at serving up breakfast and serving up justice. This time they turn up the heat on a deadly firebug... As Suzanne is getting her hair colored at Root 66, she's stunned to witness the County Services office next door suddenly go up in flames. Concerned neighbors throng the streets, and the fire department does their best. Unfortunately, their best isn't enough to save longtime civil service worker—and friend to the Cackleberry Club—Hannah Venable. Soon enough, it's discovered that an accelerant was used to fan the flames. Someone set the fire on purpose—was Hannah the intended victim? Suzanne, Petra, and Toni vow to smoke out the culprit. Unfortunately, the list of suspects is as varied as the Cackleberry Club's menu. When Suzanne finds a possible connection between the fire and the nearby Prairie Star Casino, she comes to realize that the arsonist wanted something very big and bad kept secret. And if the ladies aren't careful, they may be the ones gambling with their lives...

*AMC Muscle Cars : Muscle Car Color History* Sep 25 2022 Anybody who wanted to go toe to toe with the Big Three in the 1960s had to produce credible muscle cars. American Motors Corporation did exactly that with the SC Rambler and the incredibly fast AMX. Some argue, however, that AMC's insistence on pouring its relatively limited resources into the "muscle wars" ultimately led to its demise. Illustrated throughout with modern photography of restored and factory-original cars, archival images, AMC concept drawings, period advertisements, and cutaway illustrations, this color history primarily focuses on the conception, development, production, and performance of the AMX, as well as the Javelin upon which it was based. Special models like the Mark Donohue Signature Edition Javelin, along with the less-than-well-received Marlin, Rebel, SST, Hornet 360, Gremlin X, and others are also included.

The High-Performance Two-Stroke Engine Jul 11 2021 The two-stroke engine is widely used in both motorcycle racing and kart racing, and in very large numbers in model car, boat and aircraft competition. The mechanical simplicity of the two-stroke engine gives it tremendous appeal, and makes it a tempting target for tuning operations, but the key to successful design, development and modification is knowledge of the engine's operating principles. This in-depth technical study of two-stroke theory and practice is intended to help would-be engine tuners to better understand the engine and the processes taking place within it, and thereby to obtain improved performance.

*The Poetry of Zen May 09 2021 A Zen poem is nothing other than an expression of the enlightened mind, a handful of simple words that disappear beneath the moment of insight to which it bears witness. Poetry has been an essential aid to Zen Buddhist practice from the dawn of Zen—and Zen has also had a profound influence on the secular poetry of the countries in which it has flourished. Here, two of America's most renowned poets and translators provide an overview of Zen poetry from China and Japan in all its rich variety, from the earliest days to the twentieth century. Included are works by Lao Tzu, Han Shan, Li Po, Dogen Kigen, Saigyō, Bashō, Chiao Jan, Yuan Mei, Ryōkan, and many others. Hamill and Seaton provide illuminating introductions to the Chinese and Japanese sections that set the poets and their work in historical and philosophical context. Short biographies of the poets are also included.*
